Unmatched Visual Fidelity with 4K and HDR

The 27E1N1800A elevates your viewing experience by offering over 1.07 billion colors (8-bit + Hi-FRC), making gradients smooth and imagery lifelike. With a peak brightness of 350 cd/m² and HDR10 capability, highlights are brighter and shadows deeper, bringing HDR content to life. The expansive 4K resolution provides four times the detail of standard Full HD, boosting productivity by allowing ample screen space for multiple windows and applications.

Smooth Performance and Seamless Connectivity

- **AMD Adaptive-Sync:** Enjoy fluid visuals free from tearing and stuttering, especially crucial during fast-paced video playback or casual gaming sessions.
- **Fast Response:** A rapid 4 ms (grey-to-grey) response time minimizes motion blur for sharp results.
- **Versatile Connectivity:** Equipped with two HDMI 2.0 ports and a DisplayPort connection, this monitor easily connects to PCs, consoles, and various multimedia devices. Built-in speakers provide convenient audio without the need for external peripherals.

Designed for Comfort and Sustainability

Philips prioritizes user well-being during extended usage. The ergonomic design includes tilt adjustments, allowing you to find the perfect viewing angle. Furthermore, the 27E1N1800A integrates advanced eye-care features:

- **Flicker-Free Technology:** Regulates brightness to reduce visible screen flicker, minimizing eye strain.
- **LowBlue Mode:** Reduces harmful shortwave blue light emissions, protecting your eyes during long work sessions.
- **Eco-Friendly Commitment:** This display is designed with sustainability in mind, featuring mercury-free components and 100% recyclable packaging.

MMD-MONITORS & DISPLAYS (Philips Monitors) is a leading global monitor brand committed to delivering innovative and high-performance display solutions that enhance productivity and entertainment experiences worldwide.
