# 135.99€

The DIGITUS video/audio extender kit includes both a transmitter and a receiver, making it an ideal solution for your connectivity needs. Compatible with a maximum video resolution of 4K, this device supports a V-Sync rate of 120 Hz, ensuring fluid video playback. Designed for flexibility, it can be mounted on a wall or used as a desktop unit, accommodating various setups while keeping your space organized. Built with a resilient metal housing, the device meets HDCP 2.3 compliance, ensuring secure content transmission. It features a status display and an easy-access reset button for user convenience. Enjoy HDR support and EDID Pass-Through for high-quality image transmission over distances up to 40 m, making this extender an efficient choice for both commercial and personal uses.
