## EIZO FlexScan S1934H-GY 19" TFT Monitor

The EIZO FlexScan S1934H-GY is a 19-inch monitor designed for comfortable and efficient use in office environments. It features an IPS panel with wide viewing angles, ensuring consistent and clear visuals for multiple viewers. With optimized brightness through its Auto EcoView function, it reduces eye strain and lowers power consumption.

### Features:

- **Auto EcoView:** Automatically adjusts screen brightness based on ambient light, reducing eye strain and saving energy.
- **IPS Panel:** Provides 178° viewing angles, ensuring minimal color shift and consistent display quality.

- **Multiple Inputs:** Includes DisplayPort, DVI-D 24-pin, and D-Sub mini 15-pin inputs for versatile connectivity.
- **Ergonomic Stand:** Offers 100 mm height adjustment, 30° tilt, 70° swivel, and 90° rotation for optimal viewing comfort.
- **Blue Light Reduction:** Paper mode reduces blue light emissions, simulating the appearance of printed paper for comfortable reading.
- **Long-Lasting Warranty:** Comes with a five-year warranty, ensuring long-term reliability and reduced total cost of ownership.
- **Optional LCD Panel Protector:** The FP-1901 protector reduces light reflection and enhances image vibrancy.

EIZO is a Japanese company renowned for manufacturing high-end display solutions, ensuring excellent image quality, reliability, and ergonomic design. EIZO monitors are trusted by professionals worldwide.

### **Optimized Brightness with Auto EcoView**

The Auto EcoView function is a sensor on the front of the monitor that measures ambient light and optimizes the screen's brightness to a level akin to viewing a sheet of paper under typical office lighting conditions. Since the screen is never too bright, eye strain is reduced while power consumption is cut by up to 50% compared to operating the monitor with Auto EcoView turned off and set to the default factory brightness of 100%.

### **IPS Panel with Wide Viewing Angles**

The IPS (in-plane switching) panel offers 178° viewing angles to minimize color shift and contrast when viewing the screen at an angle. This ensures stable and consistent display when two or more people view the screen at once or in a multi-monitor environment.

### **Three Inputs Including DisplayPort**

[www.shopro.lt](http://www.shopro.lt) | [info@shopro.lt](mailto:info@shopro.lt) | +370 693 39903

DisplayPort, DVI-D 24-pin, and D-Sub mini 15-pin inputs are included for connection with various graphics boards.

### **Viewing Comfort with an Ergonomic Stand**

Adjust the screen to the most comfortable position with 100 mm height adjustment, 30° tilt, 70° swivel, and 90° rotation for portrait mode. A stand with 30° tilt only is available as an option.

### **Reduced Blue Light**

A preset mode called “Paper” adjusts the brightness, contrast ratio, and color temperature to simulate those of printed paper. Paper mode significantly reduces the amount of blue light emitted from the screen for more comfortable viewing.

### **Built to Last Five Years**

EIZO’s five-year warranty is two years or 67% longer than the standard three-year warranty of most brands. Even if the initial purchase price of the FlexScan S1934 is higher than another 19-inch monitor, the TCO (total cost of ownership) will likely be lower due to the significantly longer buying cycle and less need for repair.

### **Optional LCD Panel Protector**

The FP-1901 protector fits easily between the LCD screen and bezel, has a light transmission rate of more than 90%, and includes both an anti-glare coating side to reduce light reflection and a glossy side for crisper, more vibrant images.
