# DELL S2725HS 27-Inch Full HD 100Hz Monitor for Business and Comfort

The DELL S2725HS is designed to enhance your daily productivity and entertainment needs in a single, stylish package. This 27-inch Full HD (1920x1080) monitor combines impressive visuals with outstanding integrated audio and a modern, lifestyle-inspired Ash White design. Perfect for both the home office and demanding business environments, it prioritizes eye comfort and comprehensive connectivity.

## Superior Visuals and Fluid Performance

- **Vivid IPS Panel:** Experience consistent colors and wide 178° viewing angles on the premium IPS display. With 99% sRGB coverage, images are accurate and true to life.
- **Smooth 100 Hz Refresh Rate:** Enjoy noticeably smoother visuals compared to standard 60Hz monitors, reducing motion blur during general computing and casual multimedia consumption. The fast response time (5 ms grey-to-grey) supports responsive performance.
- **Full HD Clarity:** The 1920 x 1080 resolution provides crisp details suitable for multitasking and detailed document work.
- **Eye Comfort Certified:** Features built-in Flicker-free technology and ComfortView (Low Blue Light) to minimize eye strain during long hours of use.

## Ergonomics and Integrated Audio

Achieve the perfect viewing position with extensive ergonomic flexibility, ensuring maximum comfort and reduced neck strain throughout the workday. The sleek design is complemented by powerful built-in sound.

- **Full Adjustability:** Includes Height adjustment (up to 130mm), Swivel (-30° to 30°), Tilt (-5° to 21°), and **Pivot** (90° rotation) for portrait viewing of code or documents.
- **Powerful Built-in Speakers:** Integrated 10W stereo speakers (2 x 5W RMS) deliver rich, clear audio, eliminating the need for external desktop speakers and keeping your workspace clutter-free.

- **Connectivity:** Equipped with two HDMI 1.4 ports for easy connection to multiple devices, including laptops, consoles, or media players.
- **Stylish Design:** The monitor features a refined Ash White finish, slim bezels, and integrated cable management.

**DELL** is a world leader in technology solutions, renowned for manufacturing high-quality, reliable, and ergonomically designed monitors that meet the rigorous demands of modern business and home users while committing to sustainability and innovation.

Order today from ++SHOP++ as we offer the best deals and fast delivery on the latest DELL monitors.

A 27 in. FHD monitor that optimizes eye comfort and features impressive visuals with outstanding acoustics in a lifestyle-inspired design.

Product Carbon Footprint (PCF):

1. Dell generally uses the PAIA (Product Attribute to Impact Algorithm)(<http://msl.mit.edu/projects/paia/main.html>) tool for product carbon footprint calculations.
2. Docking station related PCFs are extracted from corresponding LCAs and as such do not follow the PAIA methodology used for calculating other PCFs in this report.
3. PAIA method is developed by the Massachusetts Institute of Technology's Materials Systems Laboratory and partners.
4. All estimates of carbon footprint are uncertain. Dell Technologies reports the 5th and 95th percentile of the carbon footprint estimate to reflect this uncertainty wherever possible. (<https://www.dell.com/en-us/dt/corporate/social-impact/advancing-sustainability/climate->

action/product-carbon-footprints.htm#tab0=0)

5. Please note the emission estimate in this report is calculated using the mean value along with the standard deviation for that product model.

6. Use of default inputs (i.e. not primary data) and assumptions on location of use and other fields can introduce a standard deviation which must be taken into account while completing the calculations.

7. Please note, PAIA uses the ecoinvent Database (<https://ecoinvent.org/the-ecoinvent-database/>) whenever primary data is not made available for calculations.

8. For client and commercial end user computing products, minimum configurations were assumed for calculations. For Server and Storage products, typical configurations or ENERGY STAR (<https://www.energystar.gov/products>) configurations were used for calculations.

9. Use Phase emissions were calculated based on the location of use as "Europe" i.e. the Use Phase emissions are not specific to a single country / location.

10. The report does provide an option for a total emissions number for manufacturing, transport and end of life while leaving the use phase emissions out, in case the customer uses their own calculation methodology for use phase emissions.

11. The lifetime usage assumption at the product family level is as follows: Desktop, Notebook - 4 years, Display - 5 years and Servers - 4 years.

12. For detailed assumptions please refer to the product datasheets in the Dell Technologies reports (<https://www.dell.com/en-us/dt/corporate/social-impact/advancing-sustainability/climate-action/product-carbon-footprints.htm#tab0=0>).

13. The results from the PAIA tool are liable to change over time as the methodology is improved and datasets are updated. The PAIA version used to calculate emissions has been indicated with each record in the report.

14. Metrics used: The units for global warming potential are in kgCO<sub>2</sub>-equivalent or MT (metric ton) CO<sub>2</sub>-equivalent (CO<sub>2</sub>e).

15. Beginning in June 2024, the data dashboard now incorporates PCF values computed using the Dell PCF calculator. It's important to note that the default location utilized for these calculations shown on the data dashboard is Europe. To access PCF values calculated for the USA and China locales, please refer to the Product PCF PDF document on Dell.com.

Summary: DELL Plus S2725HS. Display diagonal: 68.6 cm (27"), Display resolution: 1920 x 1080 pixels, HD type: Full HD, Display technology: LCD, Response time: 8 ms, Native aspect ratio: 16:9, Viewing angle, horizontal: 178°, Viewing angle, vertical: 178°. Built-in speaker(s). VESA mounting,
