AG Neovo SC-32E 32-inch Surveillance Monitor

The AG Neovo SC-32E is a 32-inch surveillance monitor designed for continuous 24/7 operation. Featuring Anti-Burn-in™ technology, this monitor prevents image retention, making it ideal for security and surveillance environments. Enhanced image quality and settings control, including gamma curve selection, black-level adjustment, contrast enhancer, and CCTV mode, ensure rich images even in challenging lighting conditions.

Features:

The SC-Series surveillance displays designed for 24/7 operation feature Anti-Burn-in™ technology which prevents image retention while performing nonstop in security and surveillance environments. The series also includes enhanced image quality and settings control such as gamma curve selection, black-level adjustment, contrast enhancer and CCTV mode that help create richer images even under unfavourable lighting conditions coming from low light surveillance footage.

Industry-leading Reliability

The SC-Series is specially designed to transcend the challenge of enduring 24/7 operations. AG Neovo's Anti-Burn-in™ technology also prevents image ghosting while performing continuous mission-critical operations.

Enhanced Image Clarity

Displays with exceptionally clear images with cutting-edge gamma curve selection, black-level adjustability, and high dynamic contrast ratio 20,000,000:1; the SC-Series can capture darker details and deliver premium images, thereby enhancing image detail quality. A pre-configured CCTV mode has been geared specifically for surveillance control rooms to adjust the display's video settings such as sharpness, colour temperature, and brightness to maximise image clarity especially in low light

surveillance footage at night.

Adaptable to Your Environment Needs

With adaptability in mind, the SC-Series provides an array of configurations designed to help you tailor the display to your surveillance needs. This includes on/off toggles for the blue screen or the power LED and selectable aspect ratios including 16:9, 4:3, 1:1 or even a custom zoom mode which helps accommodate the display to the conditions of your control room regardless of the input signal.
