most. Thanks to the advanced LIGHTSYNC technology, you can personalize your gaming setup using vibrant animations, media-driven settings, or custom color schemes chosen from a palette of approximately 16.8 million colors. Whether you pick one color, blend three, or create your own fun animation, the choice is entirely yours.

Gaming-Grade Performance and Precision

The G203 features a dedicated gaming-grade optical sensor, delivering accurate cursor tracking and exceptional responsiveness. Customize your sensitivity on the fly with real-time switching, allowing you to select the perfect level from 200 up to 8,000 DPI (dots per inch) to match your game style. With an ultra-fast 1 ms response time and a 1000 Hz polling rate, every click and movement is registered instantly, giving you a competitive edge.

Key Features for Competitive Gaming

- **Advanced LIGHTSYNC RGB:** Full spectrum customization supporting approximately 16.8 million colors, allowing for custom animations or synchronization with gameplay.
- **Six Programmable Buttons:** Fully customizable controls for complex commands and macros, managed by an ARM 32-bit processor for speed.
- **Adjustable DPI:** Gaming-grade optical sensor with sensitivity adjustable from 200 to 8,000 DPI.
- **Hyper-Responsive Connection:** Wired USB connectivity providing a 1000 Hz polling rate (1 ms response time).
- **Lightweight Design:** Weighs only 85 grams, ensuring quick movement and comfort during long gaming sessions.
- **Broad Compatibility:** Supports Microsoft Windows 7 or later, Apple MacOS X 10.10 or later, and Google Chrome OS.

LOGITECH is a globally recognized leader in computer peripherals and software, known for pioneering innovation in computer navigation, communication, and entertainment. Their commitment to quality ensures superior gaming equipment.
