- **NeoV™ Optical Glass:** Protects the screen from damage and impact, enhancing durability.
- **Super Resolution Technology:** Enhances image clarity and detail, particularly in low-light surveillance footage.
- **CCTV Mode:** Pre-configured settings to maximize image clarity for surveillance applications.
- **Versatile Compatibility:** Supports multiple video input sources, including legacy video cameras and modern HDMI/DisplayPort equipment.
- **Loop Through Composite Output:** Simplifies connections to other devices without the need for a splitter.

AG Neovo is a company recognized for its high-quality display solutions designed for demanding professional environments. With a focus on reliability and innovation, AG Neovo products deliver exceptional performance and durability.

Order today from ++SHOP++ as we offer the best prices and fast shipping.

Ideal for legacy and modern surveillance applications, the SX-Series is equipped with analogue and digital connectivity as well as Composite output for video looping. Built to last and perform in 24/7 operations, it features AG Neovo's Anti-Burn-in™ technology, preventing image ghosting and ensuring professionals view the present, not the past. Coupled with NeoV™ Optical Glass and metal casing, the display is shielded from incidental damage and impact to withstand the most demanding environments. Highly versatile and compatible, the SX-Series is the optimal display solution for seamless video surveillance transition.

### **Industry-leading Reliability**

The SX-Series is specially designed to transcend the challenge of enduring 24/7 operations. AG Neovo's Anti-Burn-in™ technology also prevents image ghosting while performing nonstop mission-critical operations. Its metal casing and NeoV™ Optical Glass not only protect the SX-Series from damage but also keep maintenance easy.

### **Optimised for Surveillance and Security**

Built with cutting-edge super-resolution technology, the SX-Series can upscale images at a higher and more detailed resolution for better clearness. Besides, geared specifically for a surveillance control room, a user-friendly CCTV mode is pre-configured to maximise image clarity in the scenario
