AG Neovo TX-1702 17-inch Touch Screen Monitor

The AG Neovo TX-1702 17-inch touch screen monitor delivers a seamless and responsive touch experience, featuring a 10-point projected capacitive (PCAP) multi-touch screen that even works with latex gloves. With DisplayPort, HDMI, and VGA input connectivity, the TX-1702 supports both analogue and digital signals, offering flexibility for various applications such as factory automation, information displays, digital signage, and self-service kiosks. The touch monitor is encased in a durable metal housing with an edge-to-edge tempered glass design, ensuring continuous operation in demanding and high-traffic environments.

Features:

- **Premium PCAP Multi-Touch Screen:** Registers up to 10 simultaneous touch points with fast, accurate, and extremely sensitive touch responses, similar to smartphones and tablets.

- **Cross-Platform Touch Capability:** Optimized for compatibility with Windows, Linux, macOS, and certain Android versions, providing versatile operating system options.
- **IP65 Dust and Water Protection:** The front screen is protected against dust and liquid spills, making it ideal for industrial workplaces and high-traffic public locations.
- **Consistent Form Factor Design:** Ensures easy replacement without requiring changes to existing infrastructure, thanks to a consistent design and long product life cycles.
- **Durable and Scratch-Resistant Touch Screen:** Features metal housing and 7H tempered glass for high durability and scratch resistance, suitable for 24/7 operation in public settings.
- **Ergonomic Monitors with Flexible Mounting:** Offers flexible mounting options, including an adjustable tilt stand (from -5 to 90 degrees), desk mounts, wall mounts, and VESA mounting patterns.
- **Versatile Connectivity:** Provides both analogue (VGA) and digital (DisplayPort and HDMI) video inputs for maximum versatility and easy connection to various devices.

AG Neovo is a company known for providing reliable and durable display solutions for both commercial and industrial applications.

AG Neovo TX-1702 17-inch touch screen monitor provides a smooth and responsive touch experience with 10-point projected capacitive (PCAP) multi-touch screens, including responsiveness to latex gloves. With DisplayPort, HDMI and VGA input connectivity, the TX-1702 supports analogue and digital signals respectively, making them flexible for various applications such as factory automation, information displays, digital signage, and self-service kiosks. The TX-1702 touch monitor is complemented by a metal housing with an edge-to-edge tempered glass design which enhances durability for continuous operation in demanding and high-traffic areas.

PREMIUM PCAP MULTI TOUCH SCREEN

Based on PCAP touch screen technology, the TX-1702 touch screen monitor can register up to 10 simultaneous touch points with fast, accurate, and extremely sensitive touch responses. These seamless touch senses are identical to those used in smartphones and tablets.

CROSS-PLATFORM TOUCH CAPABILITY

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

Multi-Touch capability is optimized to work with various operating systems, providing compatibility with Windows, Linux, macOS, and certain Android versions. This enables more choice to the operating system you use.

IP65 DUST AND WATER PROTECTION

The TX-1702 front IP65 touch screen monitor is designed to protect against dust and liquid spills. This makes the TX-1702 a durable touch monitor ideal for the industrial workplace or the demanding, high-use, and high-traffic public locations.

CONSISTENT FORM FACTOR DESIGN

Replacing AG Neovo touch screens never requires users to change their whole infrastructure. This is because AG Neovo offers a consistent form factor and long product life cycles. Even as technology advances, no change is made to exterior dimensions or design.

DURABLE AND SCRATCH RESISTANT TOUCH SCREEN

For 24/7 operations in public settings, the TX-1702 uses metal housing and 7H tempered glass displays to offer high durability and scratch resistance levels, all without compromising touch sensitivity.

ERGONOMIC MONITORS WITH FLEXIBLE MOUNTING

The TX-1702 touch monitor offers flexible mounting options, from the adjustable stand that come with the monitor to desk mounts, wall mounts, and all monitor mounts feature VESA mounting patterns. The TX-1702 features adjustable tilt stands. With a tilt capacity ranging from -5 to 90 degrees, users can work in the position most comfortable for them. Tilt stands are beneficial for facilitating public access by non-disabled and disabled users.

VERSATILE CONNECTIVITY

The TX-1702 provides new and legacy systems the best of both worlds since it has both analogue (VGA) and digital (DisplayPort and HDMI) video inputs, which provide maximum versatility and facilitate users to connect to a variety of devices.
