Vivid HDR

When you decide to unwind and relax, do so in front of a display with images that are realistic and natural—with HDR. Acer's HDR displays utilize an edge array with global dimming which increases the overall contrast, making black areas darker and white areas brighter.

No Screen Tearing

Say goodbye to stuttering and tearing with AMD FreeSync™. Video playback is quicker, easier and smoother as the monitor's refresh rate is synched to your computer's framerate.

High-speed Response

Enjoy clear, blur-free images even when the action speeds up with the 1ms Visual Response Boost™. A rapid response time ensures images appear clearly as they quickly move across the display, providing more immersive viewing.

Eye Safety First

Protect your eyes from unnecessary strain by utilizing Acer BlueLightShield™ and Flickerless™ technologies. View your monitor for longer with reduced glare and eye fatigue thanks to Acer ComfyView™ and Low Dimming™.

Impeccable Placement

No matter where you've decided to place your display, finding that perfect position is easy with the adjustable stand. Go on and tilt, swivel, pivot, and adjust the height to hit that ergonomic sweet spot.

Acer is a company known for high-quality monitors and display technology, offering innovative features for both work and play.
