This UPS is equipped with advanced features such as Automatic Voltage Regulation (AVR) and surge suppression to protect sensitive electronic devices. Additionally, it offers multiple output connectors, including five power connectors, to support a variety of devices. The two lead acid batteries with 8 Ah capacity ensure a dependable power source while operating within a temperature range of 0 °C to 40 °C and humidity levels of 20 to 90%. With a recharge time of 12 hours, the EG-UPS-034 is a practical solution for maintaining power stability in any environment.
