AG Neovo X-22E 21.5-inch FHD Monitor

The AG Neovo X-22E is a 21.5-inch semi-industrial monitor designed for reliable 24/7 operation in challenging environments. Its metal casing and NeoV Optical Glass provide durability and protection against scratches and chemical exposure, making it ideal for public, laboratory, and light industrial applications. This monitor delivers an optimal visual experience with excellent color, brightness, and contrast ratio.

Features:

- **NeoV Optical Glass:** Scratch-resistant with anti-acid and anti-alkali coating.
- **Durable Metal Casing:** Corrosion-resistant for enhanced heat dissipation.
- **Versatile Connectivity:** Includes DisplayPort, HDMI, DVI, and VGA inputs.

- **PIP/PBP Functionality:** Enhances productivity and efficiency.
- **Patented Anti-Burn-In Technology:** Prevents ghost images and prolongs monitor lifetime.
- **Enhanced Gamma Correction:** Optimizes images with selectable gamma curves.
- **Consistent Design:** Ensures easy replacement without infrastructure changes.

The X-22E monitor features versatile connectivity options and PIP/PBP functionality, increasing productivity. AG Neovo's patented Anti-Burn-In Technology prevents ghost images, extending the monitor's lifespan. Selectable gamma curves and specialized image settings enhance color, brightness, and contrast, ensuring optimal image quality.

AG Neovo is a company known for providing reliable and durable display solutions for various industries, focusing on innovation and quality.

22-Inch 1080p Semi-Industrial Monitor with Metal Casing

The X-22E semi-industrial monitor with the metal casing is designed for reliable 24/7 operation in demanding environments. With selectable gamma curves and versatile connectivity, this monitor provides an optimal visual experience with excellent colour, brightness, and contrast ratio. NeoV Optical Glass screen and corrosion-resistant metal casing shield it from scratches and chemical exposure which make it ideal for public, laboratory, and light industrial applications.

Protective Glass to Withstand Chemical Exposure

The NeoV Optical Glass attached to the X-22E screen is scratch-resistant with anti-acid and anti-alkali coating treatment and tough enough to withstand repeated cleaning.

Durable in Light Industrial Environment

Its corrosion-resistant metal casing provides enhanced heat dissipation, making the X-22E semi-industrial monitor durable for demanding environments.

Versatility, Productivity and Compatibility

The X-22E allows viewing critical data and engaging multiple video sources with versatile connectivity, including DisplayPort, HDMI, DVI, and VGA. The PIP/PBP option allows for increased productivity and efficiency. Selectable aspect ratio and zoom functions provide compatibility with

different video sources.

Patented Anti-Burn-In Technology

AG Neovo's patented Anti-Burn-in technology tackles the LCD monitor burn-in effect, otherwise known as a ghost image on the screen. Burn-in images result in the polarisation of the liquid crystal material contained within the TFT LCD panel. The Anti-Burn-in technology prolongs the lifetime of AG Neovo monitors featuring this technology to secure user's investment.

Consistent Design with A Longer Lifetime

Replacing AG Neovo semi-industrial monitors never requires users to change their whole infrastructure. This is because AG Neovo offers a consistent form factor and long product life cycles. Even as technology advances, no change is made to exterior dimensions or design.

Enhanced Gamma Correction

Selectable gamma curves visually optimise different kinds of images. The AG Neovo specialised image settings enhance colour, brightness, sharpness and contrast ratio, allowing the X-22E semi-industrial monitor with a metal casing to improve the light, shadows and colour balance of videos.
