Sony Xperia 1 IV 6.5" Išmanusis Telefonas

Sony Xperia 1 IV suteikia neprilygstamas vaizdo įrašymo galimybes, leidžiančias kurti ir dalintis turiniu kaip niekada anksčiau. Šis išmanusis telefonas yra pirmasis, galintis įrašyti 4K HDR 120 kadru per sekundę vaizdo įrašą su visais objektyvais, užtikrinant išskirtinę kokybę visiems jūsų kūrybiniam projektams. Su tokiomis funkcijomis kaip Eye AF ir Object Tracking, jūsų objektas visada bus sufokusuotas. Videography Pro funkcija siūlo rankinius valdiklius dar didesnėms kūrybinėms galimybėms, o tiesioginė transliacija leidžia dalintis turiniu su savo auditorija keliaujant.

Savybės:

- Įrašykite vaizdo įrašą 4K HDR 120 kadru per sekundę sparta su visais objektyvais.
- Realaus laiko Eye AF ir Object Tracking užtikrina, kad jūsų objektas visada būtų sufokusuotas.

- Trys objektyvai universaliam vaizdo turinio kūrimui (16 mm itin plataus kampo, 24 mm plataus kampo ir 85–125 mm teleobjektyvas su tikru optiniu priartinimu).
- Tiesiogiai transliuokite vaizdo įrašą į vaizdo transliacijos paslaugas naudodami Videography Pro.
- Profesionali technologija iš Alpha kamerų užtikrina išskirtinį automatinio fokusavimo našumą.
- Iki 20 kadru per sekundę AF/AE HDR serijos fotografavimas su visais objektyvais.
- Tikras optinio priartinimo objektyvas be vaizdo pablogėjimo (85–125 mm).
- Pasinerkite į 4K HDR OLED 120 Hz atnaujinimo dažnio ekraną.
- Galinga 5000 mAh baterija su greito įkrovimo galimybėmis.
- Atsparus vandeniui ir dulkei (IP65/68).

Sony yra pasaulinė lyderė vartojimo elektronikos srityje, žinoma dėl naujovių ir kokybės. Turėdama pažangiausių technologijų kūrimo patirtį, Sony ir toliau tiekia produktus, kurie pagerina mūsų gyvenimo ir darbo būdus.

Create incredible video content

The Xperia 1 IV provides unparalleled video capabilities for creating and sharing content. Our first smartphone capable of recording 4K HDR 120fps video on all lenses, it lets you put your creativity to work in exceptional quality. Eye AF and Object tracking guarantee your subject is always in focus, while the Videography Pro feature offers manual controls for more creative possibilities. Meanwhile live streaming lets you share content on the go with your audience.

Eye AF brings videos to life

Sony is recognised by the industry for its outstanding AF capabilities. By detecting the human or animal eye and maintaining focus on it as your subject moves, Eye AF brings videos to life as never before.

Stay focused with Object Tracking for video

Object Tracking can automatically track a moving subject and keep it in sharp focus, even when it doesn't have eyes or its eyes are obscured from view.

Three lenses for video content creation

The Xperia 1 IV gives videographers a wealth of creative opportunities with a choice of three lenses including ultra-wide 16mm, wide-angle 24mm, and telephoto with true optical zoom 85-125mm. All three offer 4K HDR 120fps video recording, Eye AF and Object tracking.

Record video in 4K HDR 120fps on all lenses

Whichever lens you're using, the Xperia 1 IV lets you shoot high quality video in 4K HDR 120fps. You can then play back the 120fps content on the 4K HDR 120Hz Refresh-rate display with smooth and beautiful details. You can also select frame rate settings to shoot slow motion clips up to 5x.

Live stream video direct to video streaming services with Videography Pro

No more waiting to share unmissable content – the Xperia 1 IV lets you live stream video direct to video streaming services from your phone using Videography Pro. With Bluetooth shooting grip GP-VPT2BT and the Endurance mode, you can stream for a longer time. ^[1] Video recording Live streaming Followers

Professional technology from Alpha cameras

The Xperia 1 IV was co-developed with the engineers behind the latest Alpha 1 series cameras, renowned for their industry-leading autofocus technology, and with input from professional photographers, who helped tune the technology and refine the photographic experience and results. And just as Alpha photographers expect the same performance in any lens, so the Xperia 1 IV offers the same AF capabilities across all its lenses.

Real-time Eye AF on all lenses

Real-time Eye AF on all lenses lets you take stunning portraits, whether you're photographing people or animals. Even if your subject is on the move or one eye is covered, you'll capture memorable images full of energy and expression.

Up to 20fps AF/AE HDR burst shooting, whichever lens you choose

The Xperia 1 IV offers the same incredibly fast performance across all lenses. Whichever one you choose, you can capture up to 20fps continuous burst shooting, complete with autofocus and auto exposure. And you can take stunning images in any lighting conditions with HDR (High Dynamic Range) for the richest colour and contrast.

Real-time Tracking on all lenses

When you're trying to photograph a subject that won't stay still, a little assistance is always welcome – so the Xperia 1 IV features Real-time Tracking on all lenses.

True optical zoom lens with no image degradation

With true 85-125mm optical zoom, the Xperia 1 IV offers images free of digital degradation between 85mm-125mm. Combined with optical stabilisation and Real-time Eye AF and tracking, it's ideal for portraits with optical bokeh.

Three versatile lenses, including new telephoto with true optical zoom

The Xperia 1 IV gives you a choice of three lenses – 16mm ultra-wide, 24mm wide, and 85-125mm telephoto with true optical zoom – with the same fast speed and AF capabilities in all lenses. Like an Alpha camera, when you change lens the AF speed stays the same.

Outstanding ZEISS quality in your Xperia

ZEISS optics calibrated specifically for your Xperia smartphone. The ZEISS T* coating contributes to exquisite rendering and contrast by reducing reflections.

Great results in challenging lighting conditions

The Xperia 1 IV has a large sensor to capture more light, and BIONZ X for mobile to deliver outstanding results in all lighting conditions.

Front camera takes outstanding low light images

The new front camera takes even better pictures in low light thanks to a new front camera sensor that's bigger than the previous model's.

Play to win with the Xperia 1 IV

Created in collaboration with elite eSports players, the Xperia 1 IV has been designed with one goal in mind: winning. Used as official gear on the pro gaming circuit, Xperia offers all the speed, performance and reliability required for mobile gaming at the highest level.

Game enhancer gives you the edge

Game enhancer is your gaming control centre, enabling you to customise features and settings to create the perfect player experience and maximise your chances of winning. Crucially for eSports

players and streamers, it lets you change settings like audio, display and touch without interrupting the game and breaking your concentration.

By pro gamers, for pro gamers

With a range of features developed with professional eSports players, the Xperia 1 IV is designed to meet the demands of top-level mobile gaming. The 6.5" 120Hz Refresh rate display, for example, offers incredibly smooth gameplay, while L-γ raiser (Low gamma raiser) makes it easier to see your opponents in the dark. Other highlights include 240Hz Touch scanning rate for incredibly fast, precise moves and Touch block to avoid mistakes.

Live stream your gameplay direct to video streaming services with Game enhancer

With Game enhancer on the Xperia 1 IV, you can live stream the action direct to social network, and communicate with your viewers, seeing their comments on chat while you're playing the game.

Overheating prevention

When using a charging cable for gaming, Heat Suppression power control powers the phone systems directly rather than charging the battery. This reduces thermal stress, helping to maintain gaming performance and keep your battery healthy for longer. OFF = high temperature ON = low temperature

Record music like a pro

With the Music Pro feature, you can record and edit your vocals on your Xperia without any external microphone. In addition, Music Pro offers studio tuning function that will make your music sound like it was recorded in a studio using a condenser microphone, with noise reduced and reverberation removed. Recording your own music on your smartphone has never been so easy and sounded so good.

Experience 360 Reality Audio - like you're there with the artist

Immerse yourself in sound all around you, as real as if you are there at a live concert or with the artist recording in a studio. With 360 Reality Audio, music has never been so immersive and so real. And with the Xperia 1 IV, you can enjoy the experience through wired or wireless headphones or the built-in Full-stage stereo speakers.

3.5mm audio jack for ultimate sound quality

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. www.shopro.lt | info@shopro.lt | +370 693 39903

The 3.5mm audio jack on the Xperia 1 IV is not just convenient, it also delivers high fidelity sound quality with superior quality materials and electronic components.

Full-stage stereo speakers for superior sound

The Xperia 1 IV features Full-stage stereo speakers placed at the front of the phone to effectively reproduce the sound field. And thanks to the updated speaker driver and its enclosure structure, sound is more powerful and distortion is reduced, especially between mid and max volume. The result is more realistic sound with clear ensembles, smooth and powerful vocals, and deep basslines. Whether you're watching videos or playing music, you'll enjoy immersive, high-quality sound.

High-Resolution Audio + 3.5mm audio jack

With High-Resolution Audio you can hear music that reproduces the full range of sound, with dynamics and detail just as the artists intended.

High-Resolution Audio Wireless + LDAC

The Xperia 1 IV supports High-Resolution Audio Wireless, thanks to LDAC, our industry-adopted audio coding technology. LDAC transmits approximately three times more data (at the maximum transfer rate of 990 kbps) than conventional Bluetooth® audio, allowing you to enjoy High-Resolution Audio content in exceptional quality, as close as possible to that of a dedicated wired connection.

Immerse yourself in a 4K HDR OLED 120Hz refresh rate display

Boasting a stunning 4K HDR OLED 120Hz Refresh rate display, the Xperia 1 IV offers a uniquely immersive viewing experience. And with no notches to interrupt your view on the 6.5" 21:9 Wide display, losing yourself in your favourite movies or TV shows has never been easier.

Brightest ever 4K display

The Xperia 1 IV features our brightest ever 4K display, up to 50% brighter than the previous model, making it easier both to see and create content in bright lighting conditions. Previous model This model

Dolby Atmos sound tuned in collaboration with Sony Pictures Entertainment

Watching a movie with Dolby Atmos is an immersive experience, with multi-dimensional sound flowing above and around you. Now you can experience Dolby Atmos sound tuned in collaboration with Sony Pictures Entertainment with headphones or the Full-stage stereo speakers.

Ultra smooth scrolling

Thanks to its 120Hz refresh rate, the display offers incredibly smooth scrolling and seamless image transitions when you're browsing the internet or navigating the menu.

Experience the latest Snapdragon 8 Gen 1 Mobile Platform

The Snapdragon 8 Gen 1 Mobile Platform delivers groundbreaking performance and innovation in AI, gaming, and connectivity – for the premium experiences your devices deserve. The Qualcomm Adreno GPU delivers 50% faster graphics and Qualcomm® Kryo™ CPU delivers clock speeds up to 3.0 KHz, a 20% improvement in performance over the previous generation mobile platform.

Powerful 5,000mAh battery and fast charging

With a 5,000mAh battery on board, the Xperia 1 IV offers plenty of power to keep you going through the day. When you need to give your battery a boost, you can fast charge up to 50% in just 30 minutes with the charger XQZ-UC1.

A healthy battery, even after 3 years of use

Our charging technologies keep your battery healthy for longer. Battery care keeps your phone from overcharging, while Xperia Adaptive Charging monitors your phone as it charges, to make sure the battery isn't overworked. [A] Conventional New Xperia At the start of use After 3 years of use

Convenient wireless charging and Battery share function

Just place the Xperia 1 IV on a wireless charger to conveniently top up the battery. Thanks to the Battery share function, the Xperia 1 IV can double as a wireless charging pad for other devices too.

Water and dust resistant

For your peace of mind, the Xperia 1 IV features IP65/68 water resistance and protection against dust.

Built to last

The Xperia 1 IV display uses Corning Gorilla Glass Victus on the front and back. The tough Gorilla Glass on the front and back brings improvement in both drop and scratch performance.
