The Twin Edge design utilizes dual powerful fans and an optimized cooling system, ensuring stable performance even during intense gaming sessions. The factory overclocked (OC) settings provide immediate performance gains right out of the box, offering superior speed compared to reference models. This card is an excellent choice for system builders needing strong graphics power in a more compact setup without sacrificing thermal efficiency.

### **Key Features for Gamers:**

- NVIDIA GeForce RTX 5050 GPU for next-generation performance.
- 8GB GDDR6 high-speed memory for demanding resolutions and textures.
- Twin Edge cooling system for efficient and quiet operation.
- Factory overclocked (OC) for enhanced speed and frame rates.
- Supports cutting-edge features like Ray Tracing and NVIDIA DLSS technology for realistic lighting and substantial performance boosts.
