The AMP Extreme Infinity series represents the pinnacle of ZOTAC engineering, featuring an aggressive cooling system designed for enthusiasts and overclockers. Experience smooth, high-resolution gameplay supported by the massive 16384 MB of ultra-fast GDDR7 memory, built to handle complex textures and extensive visual effects.

### **Key Features for Extreme Gaming:**

- Powered by the high-performance NVIDIA GeForce RTX 5070 Ti GPU, delivering next-generation speed and efficiency for competitive gaming and content creation.
- Equipped with 16384 MB (16GB) of advanced GDDR7 VRAM, ensuring rapid data access and superior handling of high-resolution textures and complex environments.
- The exclusive AMP Extreme Infinity cooling system provides robust thermal dissipation, keeping temperatures low during intense gaming sessions and allowing for sustained peak performance.
- Support for advanced NVIDIA technologies, including real-time Ray Tracing and AI-accelerated features like DLSS, for stunning visual quality and improved framerates.
- Designed with enhanced durability and premium components suitable for enthusiasts seeking maximum overclocking potential.

**ZOTAC** is a globally recognized leader in the production of high-performance computer hardware, specializing in innovative graphics cards and mini-PCs designed for gaming enthusiasts and professional users worldwide.

Order today from ++SHOP++ as we offer the best competitive pricing and reliable delivery options for all your high-end component needs.
