Live CPU Temperature Display: It includes a real-time display function that shows the CPU temperature by retrieving data from the BIOS. To enable this feature, installing the CNPS13X DS Temperature software is essential.

Vibrant ARGB Lighting Effect: The cooler is equipped with bright ARGB colors that enhance the visual appeal of your build.

Powerful 120mm Annular Fan: The Zalman AF120 annular fan is designed to prevent vortex and backflow at the end of the blades, improving efficiency and stability while reducing vibration.

Reverse Direct Touch Heatpipes (RDTH): This technology minimizes thermal resistance and maximizes cooling performance by allowing larger dissipation areas of the heatpipes.

Black Coated Copper Heatpipes: The black coating not only adds to the aesthetic appeal but also improves thermal conductivity and rust resistance.
