The Xilence 120mm ARGB case fan. Synchronized lighting. Intelligent cooling.

The Xilence 120mm ARGB case fan combines modern aesthetics with efficient cooling technology. Thanks to the 3-pin ARGB connector, the lighting can be synchronized directly with the motherboard and flexibly adjusted.

The nine-blade fan design with PWM control automatically regulates the speed between 500 and 1800 rpm, ensuring a balance between cooling performance and quiet operation.

Vibration-damping rubber pads and smooth-running rotor blades further reduce noise.

The overall picture is rounded off by the impressive Infinity Mirror design, which adds a special visual accent with multi-layered light reflections.
