visibility by reducing distracting reflections.

Smooth Visuals with Adaptive Sync and 75Hz Refresh Rate

Perfect for daily use, general computing, and light multimedia, this monitor offers several performance enhancements. The maximum 75 Hz refresh rate provides smoother motion compared to standard 60 Hz displays. Furthermore, built-in VESA Adaptive Sync support eliminates screen tearing and stuttering, ensuring fluid video playback and responsiveness during casual use.

- **23.8-inch Full HD (1920x1080) IPS Panel:** Enjoy superior color accuracy, 16.7 million colors, and wide 178° viewing angles.
- **75 Hz Maximum Refresh Rate:** Delivers smoother, clearer motion for everyday tasks and multimedia consumption.
- **VESA Adaptive Sync Technology:** Synchronizes display refresh rate to the GPU output, eliminating screen artifacts.
- **Built-in Speakers:** Integrated 4W (RMS) stereo speakers (2 x 2W) provide clear audio without external clutter.
- **Quick Connectivity:** Includes HDMI 1.4 and VGA ports for versatile hookups, supporting HDCP 1.4.

Designed for Eye Comfort and Versatility

The 241V8AW/00 is engineered with user well-being in mind. Philips' innovative LowBlue Mode reduces harmful shortwave blue light, while Flicker-Free technology adjusts brightness to minimize eye strain during long hours of use. The EasyRead mode also provides a paper-like reading experience for enhanced document work. Its white finish and narrow bezel design add a touch of modern elegance to any workspace, supporting both Mac OS X and Windows operating systems. The monitor also features VESA mounting compatibility (100x100 mm) for flexible placement options.

- **LowBlue Mode and Flicker-Free Technology:** Certified eye-safe features designed to prevent fatigue, supported by TUV certification.
- **EasyRead Mode:** Optimizes the screen for comfortable, paper-like reading during document work.
- **White Aesthetics and VESA Mount Compatibility:** Stylish design and flexibility for wall or arm mounting.
