

# Graphics Card ASUS GeForce GT 1030 2GB GDDR5 Low Profile, Silent HTPC Design

Modelis: 90YV0AT0-M0NA00

Gamintojas: ASUS

EAN: 4712900743333

Prekės kodas: 431556

## 101.99€

## ASUS GeForce GT 1030: Silent Power for Your Multimedia PC

The ASUS GeForce GT 1030 is designed for users seeking quiet performance and reliable quality, making it the perfect choice for building a slimline Home Theater PC (HTPC) or upgrading any compact desktop system. Equipped with 2GB of high-speed GDDR5 memory and operating via the PCI Express 3.0 interface, this low-profile graphics card delivers smooth visuals and supports a maximum resolution of 1920 x 1200 via HDMI and DVI outputs.

## **0dB Silent Cooling — Ideal for Hushed Environments**

Experience true silence. This GT 1030 model features an exclusive ASUS-designed passive heatsink with a large surface area. This highly efficient 0dB thermal design ensures effective heat dissipation without relying on noisy fans. This passive cooling solution guarantees absolutely no sound is produced, making the card perfect for dedicated multimedia centers where silence is paramount.

## **Uncompromising Reliability with AUTO-EXTREME Technology**

ASUS ensures premium quality and unmatched reliability by utilizing the industry-first, 100% automated AUTO-EXTREME Technology production process. This manufacturing standard incorporates premium materials, guarantees consistent graphics card quality, and significantly improves both performance and longevity compared to traditional methods. Furthermore, this process is environmentally conscious, reducing harsh chemicals and power consumption.

## **Enhanced Performance Tuning with GPU Tweak II**

Take control of your graphics performance using the intuitive GPU Tweak II utility. Designed for both novice and experienced users, this software allows easy performance tweaking and advanced configuration. The new Gaming Booster function maximizes system performance with a single click by:

- Removing redundant processes and allocating resources automatically.
- Allowing users to turn off Windows visual effects for performance gains.
- Offering memory defragmentation to free up system memory quickly.

**ASUS** is a globally recognized leader in computer hardware and consumer electronics, renowned for innovation, quality, and powerful engineering. Their commitment to reliability is evident in technologies like AUTO-EXTREME, ensuring users receive long-lasting, high-performing components.

Order the ASUS GeForce GT 1030 today from ++SHOP++ and benefit from competitive pricing and specialized components for quiet computing.

## **Graphics galore for everyone!**

ASUS GeForce GT 1030 is the fantastic graphics card from ASUS. Engineered with a highly-efficient

0dB thermal design, it dissipates heat in complete silence — making GT 1030 the perfect choice for your slimline home-theater PC (HTPC) build. Exclusive AUTO-EXTREME Technology for premium quality and best reliability. It also has GPU Tweak II for intuitive performance tweaking.

## **0dB Silent Cooling**

### **Perfect for building a hushed HTPC**

Exclusive ASUS-designed heatsinks with large surface areas effectively cool graphics cards passively so absolutely no sound is produced while running - perfect for high definition and silent home theater PCs and multimedia centers.

## **AUTO-EXTREME Technology**

### **Premium quality and best reliability**

All ASUS graphics cards are now produced using AUTO-EXTREME Technology, an industry-first, 100% automated production process that incorporates premium materials to set a new standard of quality. AUTO-EXTREME Technology ensures consistent graphics card quality as well as improved performance and longevity. This new manufacturing process is also environmentally friendly, eliminating harsh chemicals and reducing power consumption by 50%.

## **GPU Tweak II**

### **Tweak Till Your Heart's Content**

Redesigned with an intuitive, all-new UI, GPU Tweak II makes overclocking easier and more visual than ever, while still retaining advanced options for seasoned overclockers. With one click, the new Gaming Booster function maximizes system performance by removing redundant processes and allocating all available resources automatically.

## **Gaming Booster**

### **One-click Performance Up**

- Visual effects: Boost your performance by turning off windows visual effects.
- System Services: Automatically or manually turn off windows services or process.
- Memory Defragmentation: Re-arrange & free your system memory without closing any processes.
