AG Neovo X15E 15-inch Monitor

The AG Neovo X15E is a robust 15-inch industrial monitor designed for continuous 24/7 operation in demanding environments. Featuring a durable metal casing and NeoV optical glass, this monitor is built to withstand scratches, chemical exposure, and the rigors of public, laboratory, and light industrial applications. It delivers optimal visual performance with excellent color, brightness, and contrast.

Features:

- **Protective NeoV Optical Glass:** Scratch-resistant screen with anti-acid and anti-alkali coating, capable of withstanding repeated cleaning.

- **Durable Metal Casing:** Corrosion-resistant metal casing provides enhanced heat dissipation for demanding environments.
- **Versatile Connectivity:** Includes DisplayPort and HDMI, with PIP/PBP functionality to increase productivity and efficiency.
- **Selectable Aspect Ratio and Zoom:** Ensures compatibility with various video sources.
- **Patented Anti-Burn-In Technology:** Prevents ghost images on the screen, prolonging the monitor's lifespan.
- **Consistent Design:** Ensures easy replacement without infrastructure changes.
- **Enhanced Gamma Correction:** Selectable gamma curves optimize different kinds of images, enhancing color, brightness, sharpness, and contrast ratio.

AG Neovo Technology is known for manufacturing high-quality, durable monitors designed for demanding professional environments. Their products are engineered for reliability and longevity, ensuring a consistent and reliable performance.

Order today from ++SHOP++ as we offer the best...

The X-15E 4:3 industrial monitor with the metal casing is designed for reliable 24/7 operation in demanding environments. With selectable gamma curves and versatile connectivity, this monitor provides an optimal visual experience with excellent colour, brightness, and contrast ratio. NeoV optical glass screen and corrosion-resistant metal casing shield it from scratches and chemical exposure which make it ideal for public, laboratory, and light industrial applications.

PROTECTIVE GLASS TO WITHSTAND CHEMICAL EXPOSURE

The NeoV Optical Glass attached to the X-15E screen is scratch-resistant with anti-acid and anti-alkali coating treatment and tough enough to withstand repeated cleaning.

DURABLE IN LIGHT INDUSTRIAL ENVIRONMENT

Its corrosion-resistant metal casing provides enhanced heat dissipation, making the X-15E industrial monitor durable for demanding environments.

VERSATILITY, PRODUCTIVITY AND COMPATIBILITY

Visualize critical data and engage with multiple video sources and PC applications with versatile

connectivity options, including DisplayPort and HDMI, and PIP/PBP to increase productivity and efficiency. Selectable aspect ratio and zoom functions provide compatibility with different video sources.

PATENTED ANTI-BURN-IN TECHNOLOGY

AG Neovo's patented Anti-Burn-in technology tackles the LCD monitor burn-in effect, otherwise known as a ghost image on the screen. Burn-in images result in the polarisation of the liquid crystal material contained within the TFT LCD panel. The Anti-Burn-in technology prolongs the lifetime of AG Neovo monitors featuring this technology to secure user's investment.

CONSISTENT DESIGN WITH A LONGER LIFETIME

Replacing AG Neovo industrial monitors never requires users to change their whole infrastructure. This is because AG Neovo offers a consistent form factor and long product life cycles. Even as technology advances, no change is made to exterior dimensions or design.

ENHANCED GAMMA CORRECTION

Selectable gamma curves visually optimise different kinds of images. The AG Neovo specialised image settings enhance colour, brightness, sharpness and contrast ratio, allowing the X-15E industrial monitor with a metal casing to improve the light, shadows and colour balance of videos.
