

Processor Intel Core i5-10400 2.90 GHz (Comet Lake) Socket 1200 - Boxed

Modelis: BX8070110400

Gamintojas: INTEL

EAN: 5032037187138

Prekės kodas: 432006

179.99€

Intel Core i5-10400 Desktop Processor: Reliable 10th Gen Performance

The Intel Core i5-10400 processor, based on the Comet Lake architecture, offers robust performance for mainstream desktop users, gamers, and content creators seeking reliability and speed. Featuring 6 physical cores and 12 processing threads, this CPU provides exceptional multitasking capabilities, ensuring smooth operation whether you are running demanding applications or juggling multiple background tasks. Operating at a solid 2.90 GHz base clock frequency, the i5-10400 intelligently boosts performance when required, delivering responsiveness for everyday computing and immersive gaming experiences on the LGA 1200 platform.

Key Performance Features:

- **6 Cores / 12 Threads:** Superior multitasking performance suitable for modern gaming and productivity suites.
- **LGA 1200 Socket:** Designed for compatibility with Intel 400 series chipset motherboards, providing a stable foundation for system builds.
- **Comet Lake Architecture:** Optimized power efficiency and increased clock speeds compared to previous generations.
- **2.90 GHz Base Frequency:** Provides high stability and reliable speed, with dynamic boosting capabilities for intense loads.
- **Boxed Solution:** Includes the standard Intel CPU cooler, making it ready for installation right out of the box.

Intel is a global technology leader, renowned for designing and manufacturing essential components like microprocessors that power the world's computing infrastructure. Their commitment to innovation drives performance in everything from personal computers to data centers.

Order the Intel Core i5-10400 today from ++SHOP++ and build your high-performance, multitasking desktop system with confidence.
