Maono DGM20 S Gaming Microphone (Black)

The Maono DGM20 S Gaming Microphone is a fantastic piece of equipment for every gamer. It combines excellent sound quality with a reliable design, offering users full control over audio thanks to practical features. With noise-cancelling, adjustable sound amplification, and stylish backlighting, the Maono DGM20 S is a thoughtful choice for gamers and streamers looking for clean, professional sound without delays.

Amplification Adjustment

The Maono DGM20 S microphone is equipped with an intuitive knob at the base that allows for precise amplification adjustment. This enables users to easily customize the volume level to their needs. Whether you need to be more audible to your allies or prefer subtle tones during late-night

sessions, the Maono DGM20 S provides flexibility and control.

Stylish Backlighting

Personalization is more than just a feature; it's a way to express yourself. The Maono DGM20 S microphone offers a rich selection of backlighting, including 7 static colors, 5 dynamic color transitions, and 7 dynamic gradients. These visual accents not only enhance the gaming atmosphere but also add character to any gaming setup, serving as an elegant complement to any configuration.

Noise Cancellation

A crucial feature of any gaming microphone is the ability to eliminate unwanted background noise. The noise-cancelling feature in the DGM20 S model ensures crystal-clear communication with your team - noise-cancelling technology allows you to maintain concentration and focus on the gameplay.

Arm Mount Construction

The arm mount of the Maono DGM20 S microphone is designed with comfort and functionality in mind. The arm consists of two segments, each approximately 33cm long, and can be attached to a desk with a maximum thickness of 5cm, ensuring that the microphone stays in place even during intense action. Additionally, the ability to tilt the arm 180 degrees guarantees optimal positioning regardless of your setup configuration.

Advanced Touch Panel

On the top cover of the Maono DGM20 S microphone, there is a modern touch panel that provides quick access to key functions. You can easily adjust the lighting, mute the sound pickup, or activate noise reduction mode without taking your eyes off the screen. This ease of use makes the Maono microphone a true companion during gaming marathons.
