monitor regardless of position, making it ideal for presentations or group collaboration.

Natural and vivid colors

The Uperfect UFilm A17 M156B11 monitor offers a color gamut of 72% and full coverage of the sRGB palette (100%) for accurate color reproduction and realistic color rendition. The 16.7 million colors in 8-bit depth enable smooth tonal transitions, making the monitor ideal for photo editing, graphics creation and multimedia work.

Comfortable viewing in all conditions

With a brightness of 300 nits, the screen remains readable even in bright light, making it more comfortable to use in a variety of conditions. The 1300:1 contrast ratio emphasizes the depth of colors and details, offering crisp and dynamic images. Thanks to these parameters, the monitor works well both indoors and outdoors, allowing for a high-quality display regardless of the environment.

Optimal refresh rate and response time

With a refresh rate of 60 Hz, the UFilm A17 M156B11 monitor offers smooth images sufficient for standard office and entertainment applications. With a response time of 30 ms, the monitor is ideal for everyday tasks, providing a balanced display quality.

Multiple connectivity options

The UFilm A17 M156B11 monitor features two USB-C ports for audio and video transfer, an HDMI port supporting 4K, as well as a micro USB-B OTG port for connecting an external drive, keyboard or mouse. In addition, the monitor offers a 3.5mm audio output so you can connect headphones.

Robust design

The monitor's housing is made of ABS plastic and metal components, which guarantees resistance to damage and durability. The monitor can be mounted according to the VESA standard (75 x 75 mm), allowing it to be conveniently placed on a wall or monitor arm, increasing the flexibility of its use in
