AMD Ryzen 9 7900 Desktop Processor (12 Cores, 65W, AM5)

Experience elite computing performance and exceptional power efficiency with the AMD Ryzen 9 7900 desktop processor. Built on the cutting-edge Raphael AM5 architecture, this 12-core, 24-thread CPU is engineered for serious productivity, demanding multitasking, and next-generation gaming. Achieving a maximum boost frequency of 5.4 GHz while maintaining a remarkably low 65W Thermal Design Power (TDP), the Ryzen 9 7900 delivers premium performance without generating excessive heat or requiring extreme cooling solutions.

Unmatched Performance and Efficiency

The Ryzen 9 7900 is ready for the future, supporting the high bandwidth of DDR5 memory, ensuring lightning-fast data processing for professional applications and high-refresh-rate gaming. With a massive 64MB of L3 Cache, data access is instantaneous, maximizing throughput for computationally intensive tasks.

Key Specifications:

- Architecture:** Raphael AM5, ready for the latest motherboards and platforms.
- Core Count:** 12 Cores / 24 Threads for superior multitasking power.
- Clock Speeds:** Base clock of 3.7 GHz, boosting up to an incredible 5.4 GHz.
- Cache:** Large 64MB L3 Cache ensuring rapid data retrieval.
- Power Efficiency:** Highly efficient 65W TDP minimizes heat generation and energy consumption.
- Integrated Graphics:** Features integrated Radeon GPU (2200 MHz clock speed), allowing system setup and basic function without a dedicated graphics card.
- Cooling Solution:** BOX package includes a stock cooler, providing immediate readiness.
- Memory Support:** Supports high-speed DDR5 memory (up to 5200 MT/s).

Whether you are rendering complex 3D models, compiling large codebases, or streaming the latest AAA titles, the 12-core power of the Ryzen 9 7900 handles it all with smooth responsiveness. Its
