1MORE SonoFlow SE HQ31 Wireless Headphones, ANC (black)

The 1MORE HQ31 wireless headphones combine superior sound quality, effective noise cancellation and exceptional comfort. The 40-millimeter titanium-coated magnetic drivers deliver balanced sound, while Hi-Res Audio certification and LDAC codec enhance the positive experience. With QuietMax™ ANC technology, background noise is reduced by up to 42 dB, ensuring full focus on music or work. The rechargeable battery allows for up to 90 hours of playback. Bluetooth 5.4 connectivity and a dual AI noise-canceling microphone guarantee a stable connection and excellent call quality. The 1MORE App allows you to customize the settings.

Hi-Res Audio and LDAC

With 40-millimeter titanium-coated magnetic drivers, the 1MORE SonoFlow HQ31 headphones offer dynamic sound with excellent tone separation. Hi-Res Audio certification and LDAC codec ensure audio transmission quality three times higher than standard SBC, and the wide frequency response (up to 40 kHz) will make you hear every detail of your favorite music. You can choose from 12 Equalizer settings.

Noise reduction at the highest level

QuietMax™ Hybrid Noise Cancellation technology effectively eliminates ambient sounds, reducing noise by up to 42 dB. It's ideal for work, travel or relaxation - listen to music without distractions even in crowded places! In addition, Transparency mode allows you to remain aware of your surroundings when you want to carry on a conversation or hear important announcements.

Wearing comfort

Ergonomic design and low weight (273 g) make the headphones extremely comfortable even during long hours of use. Soft earcups covered with skin-friendly material and an adjustable, telescoping headband provide dreamlike comfort and a perfect fit. Swiveling and detachable ear cups further enhance comfort.

Stable connection and performance

Responsible for smooth operation is Bluetooth 5.4, which provides a stable and energy-efficient connection. The ability to connect to two devices simultaneously makes it easy to switch between phone and computer. Low latency of 80 ms guarantees perfect synchronization of video and audio. The powerful battery offers up to 90 hours of use (when ANC is off) or 60 hours (when using ANC). The quick-charging function allows you to get your equipment ready for another 5 hours of use in just 5 minutes.
