

HiFiMAN Deva Pro wired planar headphones

Modelis: Deva Pro Wired only

Gamintojas: HIFIMAN

EAN: 6925624202200

Prekės kodas: 43309

198.98€

HiFiMAN Deva Pro wired planar headphones.

Enter the world of pristine sound quality with the HiFiMAN Deva Pro planar headphones that redefine listening standards. Equipped with planar drivers, "acoustically invisible" stealth magnets, they will delight you in every detail. Their exceptional ergonomics make every moment with music a true pleasure. HiFiMAN Deva Pro is a piece of equipment created for sound connoisseurs who demand not only purity of sound, but also the highest quality of workmanship.

Planar transducer technology

At the heart of HiFiMAN Deva Pro headphones are advanced planar transducers, which offer incredible detail, wide soundstage and unrivaled sound quality. Compared to traditional dynamic drivers, planar technology is distinguished by lower distortion and more natural sound reproduction. A key component is the ultra-thin Neo "Supernano" (NsD) diaphragm, which is 80% thinner than previous designs. Its lightning-fast impulse response provides exceptional precision and dynamics,

making every instrument and detail reproduced as accurately as if you were in the middle of a concert.

Stealth magnets - a revolution in sound clarity

The "acoustically invisible" Stealth magnets used in HiFiMAN Deva Pro headphones are a breakthrough technology that minimizes airborne interference and reduces diffraction of sound waves. Traditional magnets often generate reflections that affect the clarity of the sound - here this problem has been completely eliminated. The specially designed shape of the magnets allows sound waves to penetrate freely, which guarantees full transparency and pristine reproduction of the entire frequency range. In combination with the Neo "Supernano" diaphragm, the sound becomes crystal clear, spatial and extremely realistic. Every nuance, even in complex tracks, sounds with incredible delicacy and depth. This solution is ideal for those who expect absolute precision and perfect tonal balance.

Tailored to your audio equipment

HiFiMAN Deva Pro offers exceptional flexibility in connection modes. You can use the classic dual 3.5mm TRS cable (included) or a single-sided 3.5mm TRRS cable (not included). Both solutions provide excellent sound quality and compatibility with a wide range of devices. A 6.5mm adapter is also available for your use. Regardless of your choice, the Deva Pro guarantees an immersive audio experience that adapts to your needs.

Comfort that lasts for hours

The headphones are designed for long listening sessions. Soft, breathable ear cups and an ergonomic headband ensure comfort even during hours of use. The lightweight design makes the Deva Pro the perfect companion for both home studio and travel.

Included

- HiFiMAN Deva Pro headphones
- 3.5 mm TRRS to TRS cable (1.5 m)
- 6.35 mm adapter
