

HiFiMAN Ananda BT R2R planar headphones

Modelis: Amanda BT R2R

Gamintojas: HIFIMAN

EAN: 6925624201999

Prekės kodas: 43316

674.99€

HiFiMAN Ananda BT R2R planar headphones

HiFiMAN Ananda BT R2R take your moments of respite with music to an even higher level, where every detail is perfectly reproduced and every note is pristine. Equipped with a NEO Supernano diaphragm measured in nanometers and Stealth Magnets technology, the Ananda BT R2Rs offer harmonic, full sound without distortion. And it's all fully wireless, thanks to Himalaya's built-in R2R DAC module, which guarantees the highest sound quality at 24-bit/192 kHz. With its lightweight construction, ergonomic earcups and sophisticated design, you won't just hear the music, you'll really feel it - without limits and without compromise.

R2R Himalaya DAC - a master of digital audio processing

At the heart of the Ananda BT R2R is Himalaya's unique DAC technology based on the R2R architecture, known for its exceptional precision and natural sound. The DAC uses an optimized FPGA algorithm that minimizes noise and distortion, while providing excellent sound reproduction

across the frequency spectrum. This ensures that every note and detail of the recording is faithfully conveyed, without loss of quality.

NEO Supernano diaphragm

NEO Supernano's ultra-thin diaphragm allows for ultra-fast response to sound impulses, which is crucial for dynamic and balanced sound. Its design allows the reproduction of sound over an impressively wide frequency range of 8 Hz to 55 kHz, ensuring that both the bass and the delicate nuances of the treble are reproduced with unprecedented accuracy and clarity.

Stealth Magnets - a breakthrough in noise reduction

Stealth Magnets technology eliminates the phenomenon of diffraction of sound waves, which often leads to a loss in sound quality. Thanks to specially designed magnets that allow waves to pass freely, the Ananda BT R2R minimizes distortion and offers crystal clear sound. This solution is the foundation of harmonious and natural sound.

Audiophile quality without cables

The Ananda BT R2R supports advanced Bluetooth codecs such as LDAC, aptX HD, AAC and SBC for Hi-Res audio transmission. Bluetooth 5.1 provides a stable connection over a distance of up to 10 meters, as well as low latency, making the headphones perfect for listening to music, watching movies or making calls. Alternatively, you can connect them to the device of your choice with a USB-C cable.

Crystal clear conversations

The HiFiMAN Ananda BT R2R are equipped with dual microphones with cVc 8.0 technology for excellent call quality. Ambient noise cancellation eliminates unwanted sounds, making your voice clear and natural even in noisy environments. The technology not only filters out echoes, but also intelligently adjusts to acoustic conditions, minimizing interference during phone calls or video conferences.

Absolute comfort

The hybrid headband, combining lightweight with exceptional strength, ensures a perfect fit to the shape of your head. Thanks to precisely placed pressure points and even weight distribution, the headphones can be worn for hours without the slightest feeling of fatigue. On top of that, the earcups lined with soft memory foam are covered with breathable and durable fabric, which guarantees pleasant contact with the skin. Their asymmetrical shape, tailored to the natural curvature of the ears, wraps them snugly, minimizing pressure while providing excellent sound isolation. Ananda BT R2R combine luxurious comfort with ergonomic functionality, allowing you to fully immerse yourself in sound.

Intuitive operation

HiFiMAN Ananda BT R2R are headphones that prioritize comfort not only in listening, but also in everyday use. The integrated function button, located in an easily accessible place, allows full control without having to reach for the device from which you are playing music. With a simple click, you can start and stop music, adjust the volume, answer calls and even change songs - all with fluidity and precision.

Included

- HiFiMAN Ananda BT R2R headphones
- Carrying case
- USB-C to USB-A cable
- USB-C to USB-C cable
- Earmuffs installed on the headphones

Manufacturer HiFiMAN

Model Ananda BT

Frequency response 8 Hz - 55 kHz

Impedance 25 Ω

Sensitivity 103 dB

Weight 469 g

Bluetooth 5.1

Bluetooth profiles HFP, HSP, A2DP, AVRCP

Codecs aptX, aptX HD, LDAC, AAC, SBC

Operating time up to 10 hours

Charging time approx. 2.7 hours

Transmission power Class 2 (+6dB)

Transmission range 2.4GHz

Maximum range 10 m

Bluetooth version: 5.1, Operating time (min): 600, Active noise cancelling ANC: Yes, GPSR Link: https://psr-assets.innpro.pl/audio/sg_audio_headphones.pdf, Złącze ładowania: USB-C, Charger included: No, Fast charging USB PD: No, Minimum charger power (W): 0.2, Maksymalna moc ładowarki (W): 1, Gross weight: 1380, Net weight: 480, Box length: 30,00, Box width: 24,50, Box height: 17,50, Information about data generation: <https://dataact.innpro.pl/hifiman/6925624201999>
