HiFiMAN Arya Organic planar headphones

Discover the harmony of sound at its best! HiFiMAN Arya Organic headphones take the experience of listening to music to a whole new level. With planar technology and a unique organic design, this model combines natural beauty with sound precision, creating a space where every note sounds clear and realistic. Ideal for discerning audiophiles, the Arya Organic provides a unique listening experience and comfort even during hours of listening.

Innovative "Stealth Magnets" for pure sound

HiFiMAN Arya Organic use innovative "Stealth Magnets" - a new generation of magnets designed to make their presence almost "invisible" to the sound wave. Traditional magnets can cause reflections and interference, but the use of this technology eliminates these problems, guaranteeing sound clarity and transparency in the 8 Hz - 65 kHz band. The result is flawless reproduction - from delicate details to dynamic impacts.

Nanometer-thick diaphragm

At the heart of Arya Organic is an ultra-thin diaphragm with planar technology. Thanks to its minimal mass, the diaphragm is able to respond instantly to impulses, ensuring precise sound reproduction and minimizing distortion. This design enables the creation of a wide soundstage and natural space that allows you to feel like you are at the heart of musical events.

"Window Shade" system - more space in the sound

Arya Organic are equipped with a patented "Window Shade" system, which supports the open design of the drivers. This solution not only protects the drivers themselves, but also eliminates reflections and refractions that can affect sound clarity. The result is an impressively wide soundstage where every instrument and vocal has a clear place.

Comfort you'll immediately appreciate

The Arya Organics were designed with comfort in mind. The headband, made of lightweight metal and finished with hand-polished elements, not only ensures durability, but also a perfect fit for different head sizes. The soft ear cups made of high-quality materials have been properly contoured to perfectly wrap around the ears, ensuring comfort even during long listening sessions. Elegant details add a unique touch to the headphones.

Versatility of connections

The Arya Organic model is equipped with a 1.5-meter long, high-quality crystalline copper cable with a universal 6.35 mm connector. The design of the headphones allows for easy cable replacement, providing greater versatility for listeners with specific preferences. It is possible to swap the cable for a 4.4mm or XLR version (not included), allowing you to match the set with different audio sources.

Included

- HiFiMAN Arya Organic headphones
- 6.35 mm cable (1.5 m)
- Earmuffs (mounted on headphones)
