IIYAMA ProLite T2755QSC-B1 27" QHD PCAP Touchscreen Monitor

The iiyama ProLite T2755QSC-B1 is a 27-inch touchscreen monitor designed for a wide array of creative applications. Featuring WQHD (2560x1440) resolution and IPS panel technology, this monitor delivers exceptional colors and wide viewing angles for an outstanding visual experience. The Optical Bonded Projective Capacitive (PCAP) 10-point touch technology ensures seamless and accurate touch response, while also reducing light reflection and protecting against humidity and moisture.

Features:

- **27" WQHD Display:** Enjoy stunning detail and clarity with a resolution of 2560x1440.
- **IPS Panel Technology:** Experience consistent and accurate colors with wide viewing angles.
- **10-Point PCAP Touch:** Benefit from a seamless and precise touch experience.
- **Optical Bonding:** Reduces light reflection and protects against humidity and moisture.
- **Anti-Fingerprint Coating:** Ensures smoother touch and reduces resistance, keeping the screen clean from dirt, dust, and fingerprints.
- **MPP2.0 Support:** Compatible with digital pens and styluses, offering precise tilt functionality for a natural writing and drawing experience.
- **Flexible Stand:** Position the monitor at various angles for comfortable and ergonomic use.

The ProLite T2755QSC-B1 also supports MPP2.0 (Microsoft Pen Protocol) technology, enabling the use of digital pens and styluses for writing, drawing, and navigation. The anti-fingerprint coating ensures a smoother touch experience, while the flexible stand allows for ergonomic positioning.

IYAMA is a leading manufacturer of high-quality monitors, known for their reliability, performance, and innovative features.

The ProLite T2755QSC with its WQHD (2560x1440) resolution and IPS panel technology offers exceptional colors and wide viewing angles. The Optical Bonded Projective Capacitive (PCAP) 10-point touch technology ensures a seamless and accurate touch response and a lower light reflection, in addition, the display is protected against humidity and potential moisture development. A special anti-fingerprint coating ensures a smoother touch and less resistance in the swipe. It makes the screen less static and susceptible to dirt, dust and fingerprints. The monitor supports MPP2.0 (Microsoft Pen Protocol) technology, which is used in digital pens and styluses for use with compatible devices. The pen or stylus can interact with the ProLite T2755QSC, allowing users to write, draw, and navigate on the screen. It is very precise and supports tilt functionality, meaning the users can adjust the thickness and angle of their lines by tilting the pen, providing a more natural and intuitive writing and drawing experience. Its flexible stand can be positioned at several angles creating a comfortable and ergonomic user experience. A perfect choice for a vast array of creative applications.
