Unlock unparalleled performance and visual fidelity with the GIGABYTE GeForce RTX 5080 WINDFORCE OC SFF 16G graphics card. Engineered with the powerful NVIDIA GeForce RTX 5080 processor and 16GB of ultra-fast GDDR7 memory, this GPU is designed to redefine elite gaming standards, ensuring seamless 4K and demanding 8K resolution experiences.

The GIGABYTE WINDFORCE OC cooling system, featuring three fans, is optimized to maintain peak performance even during intense, extended gaming sessions. This advanced thermal solution ensures efficient heat dissipation, allowing the card to sustain its impressive 2670 MHz Core Clock frequency.

Next-Generation Gaming Features:

- **Unmatched Speed:** Utilizes the cutting-edge PCI Express x16 5.0 interface, providing massive bandwidth for data transfer between the CPU and GPU.
- **Massive Memory Bandwidth:** Equipped with 16 GB of GDDR7 discrete graphics memory and a 256-bit memory bus (30000 MHz effective memory clock), enabling extremely fast rendering and texture loading.
- **Hyper-Realistic Graphics:** Supports maximum resolutions up to 7680 x 4320 pixels, alongside DirectX 12.0 and OpenGL 4.6 compatibility for the latest graphical technologies and effects.
- **Comprehensive Connectivity:** Offers flexibility for multi-monitor setups with 3 x DisplayPort 2.1a outputs and 1 x HDMI 2.1b port.
- **Efficient Cooling:** The Active cooling type relies on the proprietary WINDFORCE design featuring multiple fans for optimized air flow and quiet operation.

GIGABYTE is globally recognized for manufacturing high-quality, durable computing hardware, renowned especially for their high-performance graphics cards and innovative cooling technologies. By choosing GIGABYTE, you invest in reliability and superior gaming performance.

Order today from ++SHOP++ as we offer the best deals and comprehensive warranties on leading graphics hardware.

Unlock unparalleled gaming prowess with GIGABYTE's NVIDIA graphics cards. Engineered for peak performance and visual excellence, our GPUs redefine gaming standards. With advanced cooling
