Ray Tracing capabilities and enhanced AI-powered DLSS technology, revolutionizing visual realism and accelerating content creation.

Unmatched Performance and Aesthetics

The Epic-X cooling solution is designed for maximum thermal efficiency, maintaining optimal temperatures even during intense, extended gaming sessions. The card's robust power delivery system and enhanced clock speeds (OC Edition) provide a significant boost over standard models, guaranteeing reliable performance when you need it most. Furthermore, the striking Addressable RGB (ARGB) lighting allows for deep customization, letting you synchronize the card's illumination with the rest of your system for a personalized and visually stunning gaming setup.

Key Specifications and Features:

- Next-generation NVIDIA RTX 50 Series architecture for unparalleled speed and efficiency.
- 16 GB of ultra-fast GDDR7 memory, providing ample headroom for 4K textures and future demanding titles.
- Factory Overclocked (OC) Edition, delivering higher boost clocks straight out of the box for immediate performance gains.
- Advanced cooling system ensuring low temperatures and whisper-quiet operation under load.
- Customizable ARGB lighting (Epic-X design) for seamless integration into aesthetic builds.
- Full support for NVIDIA DLSS, Ray Tracing, and NVIDIA Reflex technologies for superior visuals and responsiveness.

PNY is a globally recognized manufacturer known for high-quality memory modules, SSDs, and NVIDIA professional and consumer graphics cards, offering reliable performance solutions for gamers and creative professionals worldwide.

Order today from ++SHOP++ as we offer the best cutting-edge components and reliable customer support.
