Advanced Magnetic Air Cooling Technology

This edition features the innovative Magnetic Air cooling system, which utilizes swappable magnetic fans. This design not only provides superior thermal management but also allows for incredibly easy maintenance and cleaning, ensuring your GPU stays cool under heavy workloads. The factory overclocking (OC) ensures you get maximum performance straight out of the box.

Features:

- 16384 MB GDDR6 high-speed video memory for seamless high-resolution gaming.
- Factory Overclocked (OC) settings for enhanced clock speeds and better in-game performance.
- Magnetic Air Edition cooling with easily removable fans for simplified maintenance.
- Integrated RGB lighting to customize your build's aesthetics and synchronize with other components.
- Robust build quality with a premium backplate for structural integrity and heat dissipation.
- Support for the latest display technologies including DisplayPort and HDMI for multi-monitor setups.

XF is a leading global manufacturer of high-performance graphics cards and gaming peripherals, recognized for their engineering excellence and commitment to the gaming community. With a focus on durability and cutting-edge thermal solutions, XFX continues to push the boundaries of PC gaming hardware.
