cables, it combines functionality with style.

## Features:

- **4K Ultra HD Resolution:** 3840 x 2160 pixels for exceptional clarity and detail.
- **USB-C Connectivity:** Includes a USB-C port for modern connectivity, capable of charging devices up to 94W.
- **Integrated Docking Station:** Functions as a docking station with LAN connectivity, reducing cable clutter.
- **Frameless Design:** A sleek, almost frameless design that maximizes screen real estate.
- **Keyboard/Mouse Switcher:** Two USB upstream ports allow use as a keyboard/mouse switcher between two connected computers.
- **Picture-by-Picture Function:** Displays two signal sources simultaneously.
- **Multiple Ports:** Equipped with two HDMI ports, one DisplayPort, and one USB-C port.
- **Ergonomic Design:** Designed for comfort and usability in both office and home settings.

**EIZO** is renowned for its high-quality display solutions, combining cutting-edge technology with ergonomic design to meet the needs of professionals and home users alike.

Order today from ++SHOP++ as we offer the best...

Thanks to quadruple Full HD resolution, the EV3240X is ideally suited for professional applications. With 3840 x 2160 pixels, it offers a pixel density of 140 dpi on a 31.5" diagonal. Graphics and texts are therefore displayed razor-sharp. Its USB-C port guarantees state-of-the-art connectivity and charges end devices like tablets or notebooks. Thus, it convinces as a fully functional docking, including LAN connection and 94 watts of power delivery for the computer. Fewer cables offer more freedom on the desk. It also shines with its almost frameless design. Highest picture quality and ergonomics inspire and qualify it for highest demands in the office and at home. The case is available in black or white; even the cables are color-coordinated. The monitor is equipped with two HDMI ports as well as one DisplayPort and USB-C port each. With its two USB upstream ports, the EV3240X can be used as a keyboard/mouse switcher. For example, if both a home PC and a company computer are connected to the monitor in the home office, both computers can be operated with a single keyboard and mouse. When using its Picture-by-Picture function, it even displays two signal sources simultaneously.
