- **4K Ultra HD Resolution:** 3840 x 2160 pixels for exceptional detail.
- **Multiple Ports:** Includes 2x HDMI, DisplayPort, and USB-C with DisplayPort Alt Mode.
- **USB-C Docking:** Provides video, audio, and USB data transfer, along with up to 94W power delivery.
- **Integrated KVM Switch:** Easily use a single keyboard and mouse with two computers.
- **Picture-in-Picture (PbP):** Displays up to four video signals side by side with 12 available layouts.
- **Picture-in-Picture (PiP):** Efficiently utilizes the screen for presentations and meetings with two signal sources.
- **Remote Control:** Control important functions via the included remote, perfect for wall-mounted setups.
- **Slim Design:** Facilitates easy grouping in multi-screen systems.

The integrated KVM switch allows seamless operation with multiple computers, using a single keyboard and mouse. The picture-in-picture (PbP) function displays up to four video signals simultaneously, and the included remote control enhances usability, especially for wall-mounted setups. The slim design ensures easy integration into multi-screen environments.

EIZO is known for its high-quality display solutions, offering innovative products designed for professional and home use.

With a 42.5 inch screen diagonal, the EIZO FlexScan EV4340X is ideal for use in control rooms, control centers, trading floors or similar work environments: Its 4K resolution (3840 x 2160 pixels) offers four times as much information as a Full HD monitor. In addition to two HDMI inputs and a DisplayPort connection, the monitor has full USB-C docking functionality including DisplayPort Alt Mode, transmission of video, audio and USB data signals and a power supply of up to 94 watts. The EV4340X also masters operation with multiple computers or image sources with ease. The integrated KVM switch allows the use of a keyboard and mouse combination on two computers. Thanks to its picture-in-picture (PbP) function, the monitor can display up to four video signals side by side. The button on the front can be used to conveniently switch between 12 available layouts. The picture-in-picture (PiP) function for two signal sources offers efficient screen utilization for

presentations and meetings. These and other important functions can be controlled on the monitor
