- **Full HD Resolution:** Delivers 16.7 million colors in 1080p (Full HD) using in-plane switching (IPS) technology for sharper, more accurate images and wide viewing angles on its 16:9 screen.
- **Built-in Kickstand:** Adjust the monitor to your preferred angle for improved comfort and productivity.
- **HDR Technology:** High-dynamic range (HDR) enhances picture quality, expanding contrast and color range for a more immersive viewing experience.
- **One Cable Connection:** Connects via USB-C for power, data, and video transfer with a single cable. An HDMI cable is also included for HDMI connections.
- **Portability:** Lightweight and slimline design fits easily into most travel bags, with a durable aluminum housing and included Neoprene protective sleeve.

The Verbatim portable monitor offers ultimate flexibility for increased productivity and entertainment while on the go. It is the ideal solution to help you overcome one-screen limitations outside the office, extending your visual experience, anytime and anywhere.

Verbatim is a global company recognized for its high-quality data storage and technology solutions.

Delivering 16.7M colours in 1080p or full HD, the Verbatim Portable Monitor utilizes in-plane switching technology (IPS) to produce a sharper and more accurate picture and wide viewing angle on its 16:9 screen. The built in kickstand enables the monitor to be set up at the angle that suits you best in a position of your choice helping to improve comfort and overall productivity.

The display incorporates high-dynamic range (HDR) technology which improves picture quality – significantly expanding the range of both contrast and colour – giving the image more “depth” and creating a fantastic viewing experience.

One cable connection

The portable monitor connects via USB-C meaning that power, data, and video is all transferred using a single cable. Just connect it to your laptop, Mac, tablet, phone, or games console, and start sharing screens!* There is also an HDMI cable included for those requiring connection via HDMI. Using HDMI requires the use of a power supply, which is also included. For touch function support, an additional USB cable is required. The power supply also supports longer use for devices connected via USB-C.

Lightweight and slimline, the portable touchscreen monitor easily fits most travel bags. Built in a solid and durable aluminium housing and with an included Neoprene protective sleeve, it’s a perfect companion for those trips away.
