Pagrindinės savybės

- ✓ 600Hz Refresh Rate; New Fast TN Panel
- ✓ New DyAc 2 Technology
- ✓ Auto Game Mode by XL Setting to Share™
- ✓ New height adjustment powered by industrial-grade bearing design
- ✓ Black eQualizer; Color Vibrance; S Switch; Shielding Hood

Aprašymas

XL2586X+ Gaming Monitor for Esports

Best-in-Class Motion Clarity – The Top Choice for Global FPS Tournaments.

Designed for FPS players — Optimized for FPS games

The Best Motion Clarity in the Industry

Compared to a typical OLED panel, a Fast TN panel with DyAc technology provide clearer and sharper moving images helping you focus and avoid the distraction of unwanted afterimages caused by rapid motion.

Sharpest and Clearest Visuals

At the resolutions most commonly used by pro players (1280x960 for CS2 and 1920x1080 for VALORANT), our Fast TN panel with native FHD resolution provides better image sharpness due to different pixel arrangement, making it easier to identify the outlines of enemies.

Fast TN Improvement for Esports

Overshoot Reduced with Newly Developed Fast TN Panel
This newly developed panel applies faster electrical conductivity design, enhancing responsiveness of the liquid crystal and reducing the overshoot more effectively.

Vivid Color Film

XL2586X+ uses a new vivid color film and improves color performance by 35%. This primarily enhances your ability to distinguish enemy targets from the background; and improves the color wash-out on a regular TN panel.

Latest DyAc™ 2
(Dynamic Accuracy Technology)
Best-in-Class Motion Clarity

Through ZOWIE's exclusive panel hardware design, DyAc/DyAc+/DyAc™ 2 provide best in-class motion clarity and better overall visual experience.

New Dual Backlight Design

With its dual backlight technology, DyAc™ 2 enhances performance in blur reduction while it offers a soft light output, facilitating eye adaptation.

New Auto Game Mode Automatically Adjusts Color Modes

Automatically switches color modes among different games and use scenarios, providing optimal match of the content with visual performance.

Comfort & Adjustability

New monitor stand incorporates industrial-grade bearings into the height adjustment mechanism, allowing easier and smoother adjustment to preferred height.

Techninė specifikacija

Specifications	
Sandėlio grupė	Monitore [+1402][-88]
Display	
Display diagonal	61.2 cm (24.1")
Display resolution	1920 x 1080 pixels
Native aspect ratio	16:9
Touchscreen	No
HD type	Full HD
Panel type	TN
