- **31.5-inch Immersive Curvature:** The Full HD (1920 x 1080) panel delivers visuals from all angles with a 1500R curvature for viewing comfort and reduced distortion.
- **165Hz Refresh Rate:** Reduces lag and motion blur, providing an advantage in fast-paced games, allowing you to react instantly to on-screen action.
- **Extreme Low Motion Blur (ELMB):** ASUS-exclusive technology achieves 1ms MPRT to eliminate smearing and motion blur, making objects in motion appear sharper for more fluid and responsive gameplay.
- **Shadow Boost:** Clarifies dark areas without overexposing brighter areas, improving overall viewing and making it easier to spot enemies in dark areas.
- **GamePlus:** The integrated GamePlus hotkey offers in-game enhancements to help improve gaming skills.
- **GameVisual:** ASUS GameVisual Technology offers seven pre-set display modes to optimize visuals for different types of content.
- **Flicker-Free Technology:** Reduces flicker to minimize eyestrain during long gaming sessions.
- **Ultra-Low Blue Light Technology:** Reduces the amount of potentially harmful blue light emitted by the display with four different filter settings.
- **Rich Connectivity:** Includes HDMI (v2.0), D-sub, and earphone jack for wide compatibility with multimedia devices.
- **Ergonomic Design:** Offers tilt and swivel adjustments for an ideal viewing position and is VESA-compatible for wall mounting.

ASUS is a leading technology company renowned for its innovation and quality in computer hardware and electronics. The TUF Gaming series is designed to deliver robust performance and reliability for gamers.

31.5-inch immersive curvature

The 31.5-inch Full HD (1920 X 1080) panel of TUF Gaming VG328H1B delivers stunning visuals from all angles with an 1500R curvature that ensures every point is equidistant to your eyes. This contributes to greater viewing comfort — even during extended use —and lets you enjoy a wide viewing angle with less distortion and color shift when gaming and watching movies.

165Hz Refresh Rate

TUF Gaming VG328H1B 165Hz* refresh rate decimates lag and motion blur to give you the upper hand in first person shooters, racers, real-time strategy, and sports titles. This ultrafast refresh rate lets you play at the highest visual settings and lets you react instantly to what's onscreen — so you'll get that first strike in.

EXTREME LOW MOTION BLUR

VG328H1B Features the latest ASUS-exclusive Extreme Low Motion Blur technology, which achieves 1ms MPRT to eliminate smearing and motion blur, and makes objects in motion look sharper, so gameplay is more fluid and responsive.

Shadow Boost

ASUS Shadow Boost technology clarifies dark areas of the game without overexposing brighter areas, improving overall viewing while also making it easier to spot enemies hidden in dark areas of the map.

GamePlus

The ASUS-exclusive, integrated GamePlus hotkey offers in-game enhancements that help you get more out of your game. This function is co-developed with input from pro gamers, allowing them to practice and improve their gaming skills.

GameVisual

ASUS GameVisual Technology has seven pre-set display modes to optimize visuals for different types of content. This unique feature can be easily accessed through a hotkey or the on-screen display settings menu

Flicker-Free technology

Flicker-Free technology reduces flicker to minimize eyestrain for improved comfort when you're
