ASUS TUF Gaming VG32AQA1A - Immerse Yourself in WQHD Gaming

The ASUS TUF Gaming VG32AQA1A is a powerful 31.5-inch gaming monitor designed for competitive and immersive gameplay. Offering crisp WQHD (2560 x 1440) resolution, this display delivers stunning visual detail across a large screen format. Experience fluid, tear-free action thanks to the overclockable 170Hz refresh rate and lightning-fast 1 ms (MPRT) response time, ensuring you stay ahead in any fast-paced title.

Ultimate Gaming Performance

- **Overclockable 170Hz Refresh Rate:** Provides ultra-smooth visuals and significantly reduces motion blur, crucial for high-speed gaming.
- **1ms Response Time (MPRT):** Achieve exceptional responsiveness, eliminating lag and smearing for crystal-clear gameplay.
- **Adaptive-Sync Technology:** Supports AMD FreeSync™ Premium and is NVIDIA G-SYNC compatible, synchronizing the monitor's refresh rate with your GPU's frame rate to deliver tear-free and low-latency visuals.
- **ELMB Sync:** Exclusive ASUS Extreme Low Motion Blur (ELMB) Sync technology allows the simultaneous operation of ELMB and Adaptive-Sync, ensuring maximum motion clarity without screen tearing.
- **Variable Overdrive:** ASUS integrated technology that dynamically adjusts the monitor's overdrive settings based on frame rate fluctuations, guaranteeing optimal results across diverse gaming scenarios.

Vivid Visuals and Custom Features

- **High Dynamic Range (HDR10):** This monitor takes advantage of HDR technology, supporting the HDR10 standard to produce more vivid colors, deeper blacks, and higher contrast levels compared to standard monitors, offering lifelike colors and superior contrast.
- **Shadow Boost:** ASUS Shadow Boost technology enhances visibility in dark areas of the game map without overexposing brighter regions, making it easier to spot hidden enemies.

- **GamePlus & GameVisual:** Exclusive ASUS features, including on-screen overlays (crosshair, timer) and seven pre-set display modes (FPS, RTS/RPG, Cinema, etc.), optimize visuals for different types of content and improve gaming performance.

Ergonomics and Connectivity

Designed for marathon gaming sessions, the VG32AQA1A includes several features to ensure maximum user comfort and wide system compatibility:

- **Flicker-Free & Low Blue Light:** Flicker-Free technology minimizes eyestrain, while hardware-based ASUS Low Blue Light reduces harmful blue light emissions without compromising color performance.
- **Ergonomic Stand:** The stand offers tilt, swivel, pivot, and height adjustments, allowing you to easily find the perfect viewing position. It is also VESA-compatible for wall mounting.
- **Extensive Connectivity:** Equipped with a multitude of input options, including DisplayPort 1.2 and two HDMI 2.0 ports, ensuring broad compatibility with PCs and consoles.

ASUS is a world-leading technology company known for creating innovative products, components, and solutions that deliver incredible experiences. The TUF Gaming line is built for reliability and enduring performance in the most demanding gaming environments.

with supersmooth lag-free visuals, even at the highest display settings.

GAMING KEY SPEC

ADAPTIVE-SYNC

NVIDIA G-SYNC compatible and AMD FreeSync Premium technology ensure supersmooth, tear-free visuals with low latency.

COLOR PERFORMANCE

HIGH DYNAMIC RANGE

TUF Gaming VG32AQL1A takes advantage of HDR technology to deliver more vivid colors and higher contrast levels compared to traditional monitors.

EXCLUSIVE GAMING FEATURE

ELMB SYNC

ELMB Sync* software that enables ELMB to work simultaneously with adaptive-sync technology to eliminate ghosting and tearing for extraordinarily sharp, high-frame-rate gaming.

*Ideal for Fast-paced games , works better over 85Hz.

EXCLUSIVE GAMING FEATURE

VARIABLE OVERDRIVE

Integrated ASUS Variable Overdrive technology allows the display to dynamically alter its overdrive setting as frame rates fluctuate, ensuring optimal results for any game. You choose how strong you want the overall effect to be, then let the monitor take it from there.

INTUITIVE CONTROLS

ASUS DisplayWidget Lite is a software utility that lets you easily and quickly tweak settings or configure ASUS-exclusive features such as Shadow Boost, ASUS GameVisual, and more.

SHADOW BOOST

ASUS Shadow Boost technology clarifies dark areas of the game without overexposing brighter areas, improving overall viewing while also making it easier to spot enemies hidden in dark areas of the map.

GAMEPLUS

The ASUS-exclusive, integrated GamePlus hotkey offers in-game enhancements that help you get more out of your game. This function is co-developed with input from pro gamers, allowing them to practice and improve their gaming skills.

GAMEVISUAL

ASUS GameVisual Technology has seven pre-set display modes to optimize visuals for different types of content. This unique feature can be easily accessed through a hotkey or the on-screen display settings menu.

FLICKER-FREE TECHNOLOGY

Flicker-Free technology reduces flicker to minimize eyestrain for improved comfort when you're embroiled in long gaming sessions.

LOW BLUE LIGHT

The new hardware-based ASUS Low Blue Light technology reduces potentially harmful high-energy blue light emissions while offering color performance that's better than monitors with software-only filtering solutions.

EXTENSIVE CONNECTIVITY

A multitude of connectivity options, including two HDMI 2.0, plus DisplayPort™ 1.2, ensures wide compatibility with a variety of input sources.

ERGONOMIC DESIGN

With an ergonomically-designed stand, it provides tilt, swivel, pivot, and height adjustments so you can easily find your ideal viewing position. The display is also VESA-compatible for wall mounting.
