- **4K Ultra HD Resolution:** Features 3840 x 2160 pixels for finer video footage, allowing clear detail when zooming in, ideal for CCTV evidence.
- **Anti-Burn-in™ Technology:** AG Neovo patented technology prevents LCD burn-in during continuous surveillance operations.
- **Metal Casing:** Provides enhanced heat dissipation, strength, and durability, ensuring 24/7 reliable performance.
- **CCTV Mode:** Pre-configured mode maximizes image clarity in low-light footage, with adjustable sharpness, saturation, and contrast.
- **Enhanced Gamma Selection:** Optimizes visual quality, improving light, shadow, and color balance in videos.
- **Black-Level Adjustment:** Reveals more details in video surveillance images captured in nighttime or low-light environments.
- **Easy Control and Integration:** Built-in RS232 / LAN connections and AG Neovo PID command & Ctrl software for easy control and maintenance of multiple displays.
- **Superior Compatibility:** Built-in BNC and HDMI connections support both legacy systems wired over BNC and the 4K digital CCTV systems.

AG Neovo is a company known for its high-quality surveillance and display solutions, providing reliable and innovative products for security and professional environments.

The SMQ-6501 is a durable 65-inch 4K surveillance display. The display technology is future-proof and compatible with both analogue and digital surveillance systems. It provides 24/7 nonstop operation in the control rooms. The display supports up to 8MP camera image quality and can present crisp video footage, especially when zooming in on the images for further detail checking. This level of image quality promotes more efficient and accurate video surveillance analysis. The SMQ-6501 features AG Neovo patented Anti-Burn-in™ Technology, preventing LCD burn-in during a surveillance operation. The technology also includes PID command & Ctrl software for easy management of multiple displays in security environments.

zoom-in with clear detail as CCTV evidence. As a result, the operator can zoom in on a license plate number or the lines on a face. Furthermore, the panel enables the operator to view smooth 4K video and graphics with a new level of detail and clarity.

METAL CASING ENSURES RELIABLE MONITORING

The outer metal case provides enhanced heat dissipation, offering a high level of strength and durability. In turn, this improves the cooling performance to ensure 24/7 proper operation.

TAILOR-MADE FOR RELIABILITY

The SMQ-6501 security display adopts a commercial-grade panel and incorporates high-quality components to ensure 24/7 continuous operations. Furthermore, the patented Anti-burn-in™ Technology adds another protection level in mission-critical environments.

FINE-TUNE CCTV IMAGES FOR MAXIMUM CLARITY AND DETAIL

A special pre-configured CCTV Mode maximizes image clarity in low-light footage. You can make granular adjustments and quickly fine-tune your video footage with sharpness, saturation, contrast, brightness, and more. As a result, you don't need to waste time constantly testing and re-adjusting because the SMQ-6501 already has it all figured out!

ENHANCED GAMMA SELECTION

Offering an enhanced gamma selection makes for excellent visual optimization. As a result, you can easily improve the light, shadow, and colour balance quality of your videos.

VISIBLE DETAILS IN DARK SCENES

The technology lets you make black-level adjustments, which facilitate the display of more details in video surveillance images captured in the nighttime or low-light environments.

EASY CONTROL AND INTEGRATION

The built-in RS232 / LAN connections and AG Neovo PID command & Ctrl software allow you to easily control, configure and maintain multiple-display installations in a simple and intuitive way. The software provides intuitive web and mobile interfaces for remote management and OSD-related settings.

SUPERIOR COMPATIBILITY
