IIYAMA OTF1616MC-B1 Digital Signage Flat Screen

The iiyama ProLite OTF1616MC-B1 is a robust digital signage solution, featuring a 15.6-inch LCD touchscreen built with edge-to-edge glass for high durability and scratch resistance. Ideal for high-traffic public environments, this monitor supports landscape, portrait, and face-up orientations for installation flexibility. With a brightness of up to 935 cd/m², content remains visible even in brightly lit conditions. The anti-glare display is both UV resistant and IP65 rated, providing protection against sunlight, dust, and water from the front. It can operate in temperatures from -20°C to +60°C, and its anti-fingerprint coating ensures a smoother touch experience.

- 15.6-inch Full HD LCD touchscreen.
- Rugged, edge-to-edge glass bezel for enhanced durability.
- High brightness of up to 935 cd/m² for visibility in bright environments.
- Anti-glare, UV resistant, and IP65 protected front.
- Operational temperature range of -20°C to +60°C.
- Anti-fingerprint coating for smooth touch interaction.
- Proximity, ambient light, and temperature sensors for energy savings and durability.

The ProLite OTF1616MC-B1 includes sensors for proximity (turns off the screen when not in use), ambient light (adjusts brightness), and temperature (controls fan speed), contributing to energy savings and extended product life. Optional external mounting brackets (OMK5-1) facilitate easy integration, making it suitable for kiosks, industrial settings, control rooms, and interactive multimedia applications.

IYAMA is a leading display solutions provider, known for high-quality monitors and digital signage products designed for various professional applications.

Order today from ++SHOP++ as we offer the best selection of monitors at bargain prices.

Built into a rugged, edge-to-edge glass bezel the ProLite OTF1616MC-B1 guarantees high durability and scratch-resistance, making it perfect for high use public facing applications. Landscape, portrait and face-up orientation ensure flexibility in any type of installation. It offers a brightness of up to 935 cd/m², the content displayed will be visible even in very bright environments. The anti-glare display is UV resistant and IP65 protected, ensuring durability against sunlight, dust and water resistance from the front, additionally it can operate in temperatures ranging from -20°C up to +60°C. The anti-fingerprint coating ensures a smoother touch. A reliable solution for pick-up points and kiosks. A proximity sensor turns off the screen when no one is present, an ambient light sensor adjusts screen brightness, and a temperature sensor controls fan speed for cooling, resulting in energy savings and extended product durability. For ease of integration, the ProLite OTF1616MC-B1 can be equipped with optional external mounting brackets (OMK5-1) making it an ideal solution for kiosk integrators, industrial environments, control rooms and interactive multi-media.
