- **Touchscreen Control:** The responsive touchscreen supports swipe, scroll, drag, and pinch gestures, enhancing task efficiency.
- **Full HD Resolution:** Displays 16.7M colors in 1080p, utilizing in-plane switching (IPS) technology for sharper images and wide viewing angles on its 16:9 screen.
- **Adjustable Viewing:** Features a built-in kickstand for optimal viewing angles, improving comfort and productivity.
- **HDR Technology:** High-dynamic range (HDR) enhances picture quality, expanding contrast and color range for a deeper, more immersive viewing experience.
- **Single Cable Connection:** Connects via USB-C for power, data, and video transfer through a single cable. An HDMI cable is also included for HDMI connections.
- **Portability:** Lightweight and slimline design allows for easy transport in most travel bags.
- **Durable Build:** Encased in a solid aluminium housing with a Neoprene protective sleeve for added protection.

Verbatim is known for its innovative technology and high-quality products, designed to meet the needs of modern consumers and professionals alike.

## Touchscreen Control

The Verbatim Portable Touchscreen Monitor gives you an extra dimension for your work and play. You can use it as a second screen for your laptop when you are travelling or giving one-on-one presentations, or to provide a large additional display for your phone, tablet, or portable gaming system. Compact and versatile, the portable monitor gives you ultimate flexibility for increased productivity and entertainment while on the go.

The responsive and intuitive touch screen with 10-point touch functionality supports swipe, scroll, drag, and pinch gestures to help you get your tasks done efficiently. It's the ideal solution to help you overcome one-screen limitations outside the office, extending your visual experience, anytime and anywhere.

## Full HD resolution

Delivering 16.7M colours in 1080p or full HD, the Verbatim Portable Monitor utilizes in-plane switching technology (IPS) to produce a sharper and more accurate picture and wide viewing angle on its 16:9 screen. The built in kickstand enables the monitor to be set up at the angle that suits you best in a position of your choice helping to improve comfort and overall productivity.

The display incorporates high-dynamic range (HDR) technology which improves picture quality – significantly expanding the range of both contrast and colour – giving the image more “depth” and creating a fantastic viewing experience.

### **One cable connection**

The portable monitor connects via USB-C meaning that power, data, and video is all transferred using a single cable. Just connect it to your laptop, Mac, tablet, phone, or games console, and start sharing screens!\* There is also an HDMI cable included for those requiring connection via HDMI. Using HDMI requires the use of a power supply, which is also included. For touch function support, an additional USB cable is required. The power supply also supports longer use for devices connected via USB-C.

Lightweight and slimline, the portable touchscreen monitor easily fits most travel bags. Built in a solid and durable aluminium housing and with an included Neoprene protective sleeve, it’s a perfect companion for those trips away.
