Dell Pro E2225HSM: Clarity and Fluidity for Everyday Tasks

The Dell Pro E2225HSM is an excellent 22-inch monitor designed for productivity, delivering sharp visuals and smooth performance perfect for both office work and light entertainment. Featuring a Full HD resolution (1920x1080), this display ensures that text, images, and applications are rendered with outstanding clarity and detail.

Enhanced Viewing Experience with VA Panel Technology

Equipped with a high-quality VA (Vertical Alignment) panel, the E2225HSM provides superior contrast ratios and deep, rich blacks compared to standard TN panels. This technology also allows for wider viewing angles, ensuring consistent picture quality whether you are sitting directly in front of the screen or viewing it from the side. This makes collaboration and multitasking easier.

Smooth Performance at 100Hz

Step up from standard 60Hz monitors. The improved 100Hz refresh rate reduces motion blur and enhances responsiveness, making scrolling through documents, browsing the web, and watching videos significantly smoother and more comfortable for your eyes. This fluidity contributes to reduced eye strain during long work sessions.

Key Specifications:

- Screen Size: 22 inches – ideal for focused desktop use and smaller workspaces.
- Resolution: Full HD (1920 x 1080) for crisp, clear visuals.
- Panel Type: VA Technology, offering excellent contrast and wide viewing angles.
- Refresh Rate: 100Hz, providing visibly smoother on-screen action than standard displays.

DELL is a globally recognized leader in computer technology, celebrated for manufacturing reliable, high-performance computing equipment, monitors, and peripherals designed for both professional enterprise and home use.
