Find what you want—fast. Search by title, actor, or director and get unbiased results across top channels to see where you can stream your favorite shows free or at the lowest cost.

### **Intuitive Home Screen**

Quick access to your favourite streaming services, inputs and free live TV channels.

### **Free Roku App**

Control your TV, use voice search, audio through headphones and more. iOS® and Android™.

### **Supports all popular voice assistants**

Apple AirPlay, Apple Home, Alexa, Google Home.

### **User-friendly remote control**

It has everything you need to control your TV, including quick access to popular streaming channels.

### **4K/UHD Resolution**

Simply breath-taking in sharpness and colour: 4K Ultra HD is four times better than full HD resolution. You can even experience older films or series with unprecedented clarity. This is ensured by the modern image upscaler technology, which optimises any kind of content to 4K. Uncompromising cinema quality at any time at home.

### **HDR - High Dynamic Range**

HDR brings optically even more out for you when watching TV. With extra brightness and contrast as well as a wider range of colours, the image is perfectly suited to the human eye. Bright pictures are clearer and more vivid, reds, greens and blues become more iridescent and the picture gains depth.

### **Netflix**

Watch what you're interested in at any time, unlimited and without any adverts: with Netflix you can stream a huge number of films, series and documentaries – including big blockbusters and elaborate in-house productions. Simply take out a paid subscription and you can choose from thousands of offers.

### **Active Motion 400**

**No more blurriness or out of focus: with Active Motion, you'll experience moving images with a**

sharpness that no conventional LCD TV can give you. What makes the dramatic difference? Powerful processors and a superior LCD display with a short response time. Perfect for sports, film and action.

### **Prime Video**

With Amazon Prime Video you have access to a huge selection of (original) films and TV shows. Watch the series everyone is talking about and the best films, including the latest blockbusters. The paid streaming service simply always brings good entertainment to your screen.

### **Dolby Vision**

The cinema was the inspiration for this innovative technology, which brings images to life again. It uses enhanced brightness, contrast, colour and details for this. The results are ultra-individual images with a vibrancy that makes you forget the difference between films or series and reality.

### **HEVC/h.265**

Future inclusive: with this very latest video codec, you're ready for the broadcasting standards of tomorrow today. And when the action starts, you'll be in on the action with your Sharp TV right from the start.

### **HDMI Inputs**

Plug it in, ready, go: with HDMI inputs you can connect all kinds of devices –Blu-ray or DVD players, streaming boxes, digital receivers or game consoles. Now films, music and games are available on your TV.

### **Dolby Digital/Dolby Digital Plus**

Everyone is familiar with the terms, and behind them are audio codes for transmitting sound. Dolby Digital can provide sound with 5 channels and subwoofer. With Dolby Digital Plus, two additional channels refine the sound by adding more detail and creating an impressive surround sound.

### **HLG**

Hybrid Log Gama, or HLG for short, is a must-have for every modern TV. With this standard you can take advantage of optically high-quality HDR content, which broadcasters or streaming providers transmit by satellite, cable or antenna.
