Experience gaming revolution driven by dedicated Ray Tracing Cores, simulating the physical behavior of light for cinematic, immersive realism. Further boosting performance, NVIDIA DLSS utilizes AI technology to dramatically upscale frame rates without compromising image quality, ensuring you get the competitive edge when you need it most.

Optimized Cooling and Performance

The Twin Edge design focuses on maximizing thermal efficiency within a compact form factor. This advanced dual-fan cooling system ensures lower operating temperatures and stable performance even during intense, prolonged gaming sessions. Coupled with 8GB of high-speed GDDR6 memory, the RTX 5060 is primed to handle modern textures and multitasking demands.

- Equipped with NVIDIA GeForce RTX architecture for superior efficiency.
- 8192 MB (8GB) GDDR6 memory providing rapid texture loading and bandwidth.
- Supports advanced features like Ray Tracing and NVIDIA DLSS technology.
- Twin Edge cooling system for optimal thermal management and quiet operation.
- Compact design suitable for a wide range of PC builds.
