## Gainward GeForce RTX 5050 Pegasus 8GB GDDR6 Graphics Card

The Gainward GeForce RTX 5050 Pegasus is engineered to deliver reliable and smooth performance for modern gaming and creative tasks. Designed with efficiency and a compact form factor in mind, this card is an ideal choice for PC builders looking to maximize power in smaller enclosures (SFF builds) without compromising on graphical fidelity.

Equipped with 8 GB of high-speed GDDR6 memory, the RTX 5050 ensures rapid data access necessary for high-resolution textures and complex scene rendering. Experience the latest generation of NVIDIA architecture, bringing advanced features like ray tracing and AI-accelerated performance enhancements to entry-level gaming setups.

### Key Features of the RTX 5050 Pegasus:

- **8 GB GDDR6 Memory:** Provides ample bandwidth for immersive 1080p and competitive 1440p gaming experiences.
- **Compact Pegasus Cooling:** Features an optimized cooling solution designed by Gainward to maintain low temperatures and quiet operation, even under heavy load, fitting easily into various case sizes.
- **RTX Technology Support:** Ready for modern graphical standards, offering enhanced visual realism and performance capabilities.
- **Energy Efficient Design:** Optimized power draw for balanced system performance and reduced heat generation.

**GAINWARD** is a trusted manufacturer known globally for producing high-quality graphics cards that push performance boundaries while maintaining excellent thermal management and reliability.
