Aprašymas

LG UltraFine™ Display

World's first Thunderbolt™5 5K2K Display*

Engineered for Precision

For data analysts, developers, and IT professionals handling complex dashboards, code, and financial data, the 40-inch 5K2K display delivers the clarity and wide screen space you need to work with focus and efficiency.

Experience Smoother Screen Movement with a 120Hz Refresh Rate. Ideal for professional tasks like data scrolling, document review, and content creation. The enhanced fluidity supports precise work and helps maintain focus during intensive workflows.

Because contrast ratio impacts accurate color representation, Nano IPS Black enhances the contrast ratio from the standard IPS 1000:1 to 2000:1—delivering vibrant colors and sharper detail in objects, shadows, and backgrounds. Experience deeper blacks and richer shadows that remain consistent color expression on the screen from edge to edge, and a heightened sense of realism that conveys your visual outputs naturally.*Nano IPS is an advanced IPS technology that uses nanometer-sized particles on the screen's LED.

One connection. Efficient workflow.
Thunderbolt™ 5 enables the production of commercial outputs such as financial dashboards, control room visuals, and enterprise-grade content on an outstanding 5K2K display.

Connect your laptop, camera, tablet, or external storages through versatile ports including Thunderbolt™ 5, HDMI 2.1, and USB-C and USB-A. Get smooth and stable performance without extra adapters or splitters.

Thunderbolt™ 5 ports support daisy chaining for streamlined setup. Output video, transfer assets, and connect multiple devices – all through a single port. Say goodbye to tangled cables and keep your workspace clean and ready.

The integrated docking station lets you connect power, data, video, and peripherals directly to the monitor through a single hub. Built-in KVM allows control of two PCs with one keyboard and mouse—perfect for IT professionals and business users aiming to reduce clutter and boost productivity.

Expand your creative scope.

Dive into your content and let the action surround you. Dual 10W built-in speakers with Rich Bass deliver clear, immersive sound, ideal for calls, meetings, and video content without the need for external speakers.

A 3-sided borderless screen with a slim stand that seamlessly adjusts to your needs: tilt, raise, and pivot for personalized comfort. By adapting to your workflow, it helps you stay comfortable and focused during long, intensive projects.

40WT95UF complies with multiple standards such as Energy Star and EPEAT.

Techninė specifikacija

Display	
Display diagonal	101.6 cm (40")
Display resolution	5120 x 2160 pixels
Native aspect ratio	21:9
Touchscreen	No

HD type	UltraWide 5K HD
Panel type	IPS Black
Response time	5 ms
Screen shape	Curved
Contrast ratio (typical)	2000:1
Maximum refresh rate	120 Hz
Display number of colours	1.06 billion colours
Display brightness (typical)	450 cd/m²
Screen curvature rating	2500R
Viewing angle, horizontal	178°
Viewing angle, vertical	178°
Pixel pitch	0.18 x 0.18 mm
High Dynamic Range (HDR) supported	Yes
High Dynamic Range (HDR) technology	High Dynamic Range 10 (HDR10)
Colour gamut standard	DCI-P3
DCI-P3 coverage	99%
Performance
