

Graphics Card INNO3D GeForce RTX 5060 X3 Low Profile, 8GB GDDR7

Modelis: N5060L-08D7-17941616

Gamintojas: INNO3D

EAN: 8886307702470

Prekės kodas: 445446

414.99€

INNO3D GeForce RTX 5060 X3 Low Profile: Compact Power for Next-Gen Gaming

The INNO3D GeForce RTX 5060 X3 Low Profile brings the advanced performance of the NVIDIA Blackwell architecture into a slim, compact form factor. Designed for small form factor (SFF) enthusiasts and workstations with limited space, this graphics card delivers exceptional speed and efficiency without compromising on cooling or reliability. With 8GB of high-speed GDDR7 memory, it is perfectly equipped for modern gaming and creative applications.

High-Efficiency Cooling System

Despite its low-profile design, the X3 model features a sophisticated triple-fan cooling solution. This setup ensures that the GPU remains at optimal temperatures even during intense workloads, maintaining stable clock speeds and extending the longevity of the components.

Key Features:

- Powered by NVIDIA GeForce RTX 5060 architecture.
- 8GB of cutting-edge GDDR7 video memory for faster data throughput.
- Low profile design, perfect for slim cases and compact PC builds.
- Triple-fan X3 cooling system for superior thermal management.
- Support for advanced features like Ray Tracing and DLSS.
- Low power consumption with high performance-per-watt.

INNO3D is a world-renowned manufacturer of high-end multimedia and computer hardware products. The company is dedicated to providing high-quality graphics solutions that push the boundaries of performance and design for gamers and professionals alike.
