Patirkite neprilygstamą našumą ir ryškius vaizdus su ASUS VivoBook 15 OLED. Šis gausiai funkcijų turintis nešiojamas kompiuteris pasižymi nuostabiu 15,6 colio Wide Quad HD+ OLED HDR ekranu su kino teatro lygio 100% DCI-P3 gama, užtikrinančia, kad kiekvienas vaizdas būtų sodrus, gyvas ir tikroviškas. Su 13-os kartos Intel® Core™ i9-13900H procesoriumi, 8GB DDR4 RAM ir žaibišku 512GB SSD, VivoBook 15 OLED lengvai susidoroja su sudėtingomis užduotimis, nesvarbu, ar dirbate, kuriate, ar mėgaujate daugialypės terpės turiniu.

Pagrindinės Savybės:

- **15,6 colio Wide Quad HD+ OLED ekranas:** Pasinerkite į kvapą gniaužiančius vaizdus su ryškiomis spalvomis ir gilia juoda spalva.
- **Intel® Core™ i9-13900H procesorius:** Patirkite išskirtinį našumą sudėtingoms užduotims ir sklandų daugiafunkciškumą.
- **8GB DDR4 RAM:** Užtikrina sklandų ir greitą veikimą.
- **512GB SSD:** Suteikia greitą saugojimą ir spartų įkrovos laiką.
- **Intel® UHD Graphics:** Užtikrina aiškius, ryškius vaizdus kasdieniam naudojimui.
- **Wi-Fi 6E:** Patirkite naujausios kartos WiFi, kad galėtumėte greičiau ir patikimiau prisijungti prie belaidžio ryšio.
- **Vokiečių Klaviatūros Išdėstymas (QWERTZ):** Specialiai sukurtas vokiškai kalbantiems vartotojams.
- **ASUS Antimicrobial Guard Plus:** Slopina virusų ir bakterijų augimą ant dažnai liečiamų paviršių.
- **Atlenkiamas Vyris:** Leidžia lengvai dalytis turiniu ir bendradarbiauti.
- **Fizinis Vaizdo Kameros Skydelis:** Užtikrina jūsų privatumą.

ASUS VivoBook 15 OLED sukurtas patogumui ir patogumui, pasižymi ASUS ErgoSense klaviatūra, užtikrinančia patogų rašymo patirtį, ir patogiu dizainu. Palaikykite ryšį naudodami platų I/O prievadų asortimentą, įskaitant USB-C, USB 3.2 Gen 1, HDMI ir garso kombinuotą lizdą. Dėl lengvos konstrukcijos ir vėsios sidabrinės apdailos jis yra puikus kompanionas darbui ir žaidimams, o tvirta konstrukcija atitinka JAV karinio standarto MIL-STD-810H patvarumo standartus.

ASUS yra pasaulinis asmeninių kompiuterių tiekėjas, įsipareigojęs siekti kokybės ir naujovių, teikiantis išskirtinius produktus kiekvienam vartotojui.

Užsisakykite šiandien iš ++SHOP++, nes siūlome geriausią...

Let your vision shine

Everything is smoother with the powerful ASUS Vivobook 15 OLED, the feature-packed laptop with a brilliant 120 Hz¹ OLED HDR2 display that has a cinema-grade 100% DCI-P3 gamut. And everything's easier too, thanks to user-friendly features including a 180° lay-flat hinge, a physical webcam shield and dedicated function keys to turn your mic on or off. Your health is in safe hands with ASUS Antimicrobial Guard Plus protecting frequently-touched surfaces, and the bigger touchpad is now more finger-friendly. Enjoy the smooth power of Vivobook 15 OLED!

Performance

Smooth power

Vivobook 15 OLED helps you complete all your tasks faster than ever, whether it's at work, at home, or out and about. The 13th Gen Intel® Core™ processors with 16 GB of fast memory, 1 TB of speedy SSD storage and WiFi 6E make everything effortless.

Dynamic Performance

Easy one-click mode switching

To fully utilize the 13th Gen Intel® Core™ H-series processors, we created the amazing Dynamic Performance Mode to help maximize performance. Dynamic Performance mode lets you switch performance modes whenever you like. Just press FN+F to unleash 40 W of task-busting CPU power, boosting anything from light gaming to daily multitasking¹⁰. When you're on the go and need the best battery life, simply switch back to standard mode. You can choose the performance that best suits your needs — so you're always ready to take on anything.

* 2.98x better performance is based on Cinebench R23 Multi Core benchmark.¹¹

Thermal

Cooler, quieter and faster!

To keep it cool in all situations, the Vivobook 15 OLED use an IceBlade fan and dual air vents to efficiently accelerate heat transfer for smooth, stable performance without processor throttling.

Display

Explore a fresh new vision

Explore a fresh new visual experience with Vivobook 15 OLED's amazing three-sided NanoEdge

OLED HDR display with a 16:9 aspect-ratio. It's super-bright, with a cinema-grade 100% DCI-P3 color

gamut for ultra-vivid colors. It's also PANTONE® Validated for professional-grade color accuracy and TÜV Rheinland-certified for low blue-light emissions. It's perfect for any task, whether it's work, play or entertainment — let Vivobook 15 OLED add brilliance to your life!

Motion Clarity

Ultimate 120 Hz / 0.2 ms for exceptional motion clarity

Premium ASUS OLED displays with 120 Hz refresh rate and 0.2 ms pixel response time are incredibly smooth and clear. In fact, the 120 Hz / 0.2 ms OLED display is faster than a 165 Hz / 3 ms LCD IPS display — because it reduces ghosting to an indiscernible level. Simply put, this means even fast-moving visuals are smoother and clearer than ever.

ASUS Splendid Technology

Customizable color gamut for every need

With integrated ASUS Splendid software, the color gamut can be quickly and easily switched to suit various tasks or preferences. Choose between the ultravivid native color setting, sRGB for web content or browsing, DCI-P3 for cinema content, or Display P3 for extraordinary real-world color.

Audio-Dirac

A new perspective on laptop audio

Designed with help from the audio experts at Dirac, a professional audio solution provider, the audio system delivers the most immersive, clear, and balanced sound experience you've ever heard on a PC, laptop or tablet. You'll hear a wider and deeper soundscape than you could imagine, unleashing the full audio potential of your laptop.

ASUS Audio Booster

Upgrade your audio experience

ASUS Audio Booster uses unique audio algorithms to boost audio volume up to 1.5x and take your audio experience to the next level.

ErgoSense

ASUS ErgoSense keyboard, comfortable typing experience

Your comfort is our highest priority. That's why the ASUS ErgoSense keyboard has an incredibly satisfying feel, with the optimum key bounce and travel calculated with fine-tuned precision.

Experience the ErgoSense keyboard and you'll soon find yourself cruising effortlessly through your

work.

Full-sized keyboard

19.05 mm

The full-size 19.05 mm key pitch is the same as a desktop keyboard so you can whizz through your work with superb typing comfort and accuracy.

Close-up view of a key on ASUS ErgoSense keyboard highlighting the 0.2 mm dished key caps.

Dished key caps

0.2 mm

The 0.2 mm key-cap dish is designed to match the shape of your fingertips so your fingers are gently guided to the ideal contact point with the keys.

Close-up view of a key on ASUS ErgoSense keyboard highlighting the long 1.4 mm key travel.

Long key travel

1.4 mm

The long 1.4 mm key travel lets you type without having to use too much force. And the special ASUS-designed rubber dome guarantees your click force is met with just the right tactile bump you need for a nice grip.

0.1 mm key cap relief

When fully depressed, the keys on the ErgoSense keyboard don't sink below the level of the keyboard deck. The key caps remain at least 0.1 mm above the chassis surface, providing you with a comfortable, ergonomic typing experience.

A top-down view of numeric keypad is shown with calculator hotkeys.

Enhanced number key layout

Blitz through data-crunching tasks with the enhanced number key layout! This features hotkeys for the calculator, CE and +/- functions, along with increased spacing to match the full-size key pitch for more intuitive number entry.

Optimal click ratio: Engineered to perfection

The feel of a keyboard depends on the crucial ratio between the peak force (also known as the actuation force) and the contact force. Peak force occurs when you press down on the key and reach

the maximum force that the key's underlying rubber dome can withstand without deflecting. Contact force occurs when the bottom of the key touches the circuit board to trigger an electronic signal, which in turn generates the action appropriate to the key. To achieve the most natural feel for a keyboard, ASUS keyboard experts have scientifically determined that the optimal ergonomic click ratio for a key is between 45-60%. These forces are precisely measured and tuned using the ASUS-designed rubber domes beneath the keys.

ASUS Antimicrobial Guard Plus

Inhibit 99% of COVID-19, flu virus & bacteria*

ASUS Antimicrobial Guard Plus is applied to frequently touched areas of your laptop to help keep it hygienic. This technology uses a denser treatment* that inhibits viruses and bacteria. And it is scientifically shown — using the ISO 2170214 and 2219615 standards — to inhibit virus and bacteria growth by more than 99% over a 24-hour period¹⁶. Strains used for the tests include the SARS-CoV-2 (COVID-19), H3N2 (Influenza A) and the E. coli bacterium⁷.

ASUS Antimicrobial Guard Plus

Viruses and bacteria inhibition

Viruses and bacteria are everywhere in our daily life. Antimicrobial Guard Plus inhibits all viruses and bacteria with an envelope (the outermost layer of many types of viruses and bacteria) from the surface of the protected parts. ISO 21702 testing shows that it can inhibit the growth of SARS-CoV-2 (COVID-19), H1N1, H3N2 (Influenza A) and harmful bacteria.

ASUS Antimicrobial Guard Plus

Silver ions prevents 99% reproduction

ASUS Antimicrobial Guard Plus is a surface coating²⁴ on the laptop²⁵ that contains positively-charged silver ions. Silver ions and negatively-charged microbial cells are attracted to each other and then pierce the surface to damage their structure, inhibiting reproduction.

Without ASUS Antimicrobial Guard Plus, an estimated sample of 10,000 (pfu/ml) cells grew to 28,000 (pfu/ml). Performing the same test with Antimicrobial Guard Plus saw the count reduced to just 16 (pfu/ml) — a growth restriction of more than 99%.

User Experience

User friendly design

Unlock in one touch

Accessing your device has never been easier or more secure! With the built-in fingerprint sensor⁶ in the touchpad and Windows Hello, there's no need to type in your password every time — all you need is a single touch!

Physical webcam privacy shield

Vivobook 15 OLED takes your privacy and security seriously. There's an integrated privacy shield that slides over the webcam for instant privacy, shielding you from prying eyes and disturbances.

Wide open for sharing

Vivobook 15 OLED features a precision-engineered, lay-flat hinge that makes it easy to share content with others, or collaborate with a group of people around a table.

3DNR

Real-time webcam image optimization

ASUS 3D Noise Reduction (3DNR) Technology and the new webcam effects in MyASUS take your video-calling experience to the next level. 3DNR significantly upgrades the webcam image clarity, with a unique algorithm that sharpens images and performs real-time de-noising to make sure everything looks crisp and clear during video calls. The webcam effects in MyASUS add several useful image-processing features, including Background Blurring for enhanced privacy; Lighting Optimization to keep faces out of shadow; Motion Tracking to always keep you center-frame; and Eye Tracking to reduce the effect of your eyes wandering away from the camera.

AI Noise Cancelation

Next-level AI noise-canceling audio technology

To provide exceptional remote-working and video-conferencing experiences, features ASUS AI Noise-Canceling Technology that employs machine learning in order to isolate unwanted noise from human speech. This technology helps to filter out ambient noise for optimum group conference-call quality. The ASUS AI Noise-Canceling Microphone feature in the MyASUS app can filter out ambient noise — so you'll hear what everyone else is saying.

Try the demo to experience the amazing difference that AI Noise-Canceling Technology can make in different environments.

Conference Call

Conference calls with more possibilities

Conference calls can be single-presenter or multi-presenter, gathered around a single laptop with voices coming from various directions. With the upgraded system enabled via the MyASUS app, it detects and optimizes audio from either one direction or from all directions — ensuring top conference call audio quality.

Single presenter conference call

Single-presenter conference call mode can filter out noise and other voices, and ensures only the voice in front of laptop can be heard. When you switch on the Target Speaker Tracking mode it can even target and track new talkers within a 180° arc, making the feature ideal for recording large groups as well as for individuals.

Multi-presenter conference call

Multi-presenter conference call mode filters out ambient noise whilst identifying multiple voices from all directions and distances, so all voices can be heard more clearly.

Connectivity

Perfect in every detail

Vivobook 15 OLED keeps you fully connected with its comprehensive I/O ports. There are an USB-C® 3.2 Gen 1 port with power delivery, two USB 3.2 Gen 1 Type-A ports, a USB 2.0 port, HDMI® output and an audio combo jack — so it's easy to connect all your existing peripherals, displays and projectors.

Battery

Charge with speed

Vivobook 15 OLED supports fast charging which allows you to charge a low battery to 60% in as little as 49 minutes, so you can be up and running quicker than ever!

Design

Be extraordinary!

Vivobook 15 OLED is extraordinary, with a clean design and two eye-catching colors. Choose from charming Indie Black or distinguished Cool Silver — whichever says 'that's me!' It's slim enough to pop unobtrusively into any backpack, and light enough for easy one-handed carrying. What's better,

the extraordinary Vivobook 15 OLED uses eco-friendly Post-Consumer Recycled (PCR) materials²⁷

allowing you to contribute to sustainability in style!

Military-grade

World's most strictly tested US military-grade laptop durability²⁹

ASUS laptops⁸ are engineered with extraordinary toughness meet the exacting US MIL-STD-810H military-grade standard, undergoing 12 rigorous test methods and 26 punishing test procedures — exceeding industry standards. The upshot is a range of products that are renowned for reliability and durability. These factors also inherently benefit longevity and thus sustainability, so you can work, travel or relax with the confidence that your ASUS laptop is ready for the real world — today, and long into the future.

Software

Truly personalized workflow

MyASUS hosts a collection of handy ASUS apps and tools that help you get more out of your laptop. GlideX is a powerful cross-device screen-sharing solution. ScreenXpert helps you to manage app windows across displays connected to your ASUS PC, giving you full control of your workflow!

Software

My ASUS

MyASUS provides easy access to ASUS apps that are designed to help you maintain your system, update your software, optimize your PC's performance, and contact ASUS for after-sales support.

Software

GlideX

GlideX is a cross-device screen-sharing solution that uses wired or wireless connections to give you a bigger and better space for work and play. GlideX optimizes your workflow in the blink of an eye!

Software

ScreenXpert for ASUS PCs

ScreenXpert for ASUS PCs — which you can download from Microsoft Store or find in your PC's Start menu — helps you to manage app windows across displays connected to your ASUS PC and puts you in full control of your workflow!
