The GIGABYTE GS25F2 is engineered for competitive gamers who demand both high speed and exceptional image quality. Featuring a 24.5-inch Full HD (1920x1080) resolution display and advanced Super Speed IPS (SS IPS) technology, this monitor delivers stunning visuals and lightning-fast performance, ensuring you never miss a critical moment in the heat of action.

Unrivaled Performance for Competitive Play

Achieve true gaming supremacy with a combination of high refresh rate and ultra-low response time. The GS25F2's native 200 Hz refresh rate ensures exceptionally smooth motion clarity, while the rapid 1 ms response time eliminates motion blur and ghosting, giving you the competitive edge required in fast-paced shooters and racing games. Integration of AMD FreeSync Premium technology guarantees tear-free and stutter-free gameplay by synchronizing the monitor's refresh rate with your GPU's frame rate.

SS IPS Panel Technology and Visual Comfort

The 25-inch SS IPS panel provides wide 178° viewing angles and outstanding color reproduction, covering 120% of the sRGB color gamut with 8-bit color depth. This ensures that your games and media are displayed with stunning color accuracy and vibrancy. With a high native contrast ratio of 1000:1 and VESA Display HDR 10 support (300 cd/m² brightness), visuals are detailed and immersive.

For extended gaming comfort, GIGABYTE incorporates integrated Eyesafe 2.0 and Flicker-Free technologies. These features work together to reduce harmful blue light emission and screen flickering, minimizing eye strain during long periods of use.

Key Specifications:

- Display Size: 24.5 inches (62.2 cm) diagonal
- Resolution: Full HD (1920 x 1080)
- Panel Type: Super Speed IPS (SS IPS)
- Refresh Rate: 200 Hz
- Response Time: 1 ms (MPRT)
- Color Gamut: 120% sRGB
- HDR Support: Display HDR 10
