Modelis: AEOEZW130

Gamintojas: AEOTEC

EAN: 1220000015876

Prekės kodas: 45101

72.99€

TI weight (kg): 0.02 | Supported network protocols: Z-Wave | Other features: By using Aeotec WallMote you can control devices and scenes in your smart home easily and intuitive – at the wall as well as in your hand. The WallMote Quad by Aeotec is fixed 4-button wall switch, portable remote control and Z-Wave controller – all-in-one. The device can manage its own Z-Wave network (if it is included as primary controller) and can control other devices such as wall sockets, blinds, dimmers, lights, electronic door locks and many more. Obviously, it also can be integrated in an existing Z-Wave network as secondary controller and will work as wireless control for devices and scenes as well. Each mode will be activated in factory default after the first action. As secondary controller, the WallMote sends commands to the Z-Wave controller and also controls by that defined devices and scenes. Aeotec WallMote can trigger corresponding functions by one single click. Furthermore, it masters the so called „sliding“. This touch control system allows you to swipe with a single finger across the relevant area on the WallMote to dim the lights by intuition for instance. The battery
