

NB S14G3 CU5- 125U 14T 16GB/256GB S4K1Q2JEJBCX DURABOOK

Modelis: S4K1Q2JEJ_BCX

Gamintojas: DURABOOK

Prekės kodas: 452049

2,206.99€

Experience seamless productivity and advanced AI capabilities with the S14I semi-rugged laptop powered by the Intel® Core™ Ultra processor.

Designed for ultimate efficiency, security, and performance, this laptop combines military-grade durability with field-worker functionality and long-lasting battery life for continuous use. The S14I boasts an IP53 rating for dust and water resistance, MIL-STD 810H certification, and four-foot drop protection, making it the toughest device in its category and setting a new standard for semi-rugged laptops.

Equipped with Durabook's proprietary DynaVue® technology and high-definition multi-touch screen, the S14I offers the highest contrast ratio to minimize internal reflections, ensuring clear visibility from multiple angles, even in bright sunlight or low light conditions.

For professionals navigating today's demanding and dynamic work environments, this tough yet elegant S14I rugged laptop stands in a league of its own.

UNLOCK NEW AI PC EXPERIENCES

The S14I rugged laptop is designed to meet the demands of professionals in the automotive, law enforcement, manufacturing, utilities, and field service sectors. Its dedicated neural processor unit (NPU) accelerates AI-driven tasks, making the S14I a well-suited device for field operations, real-time analytics, and on-site project duties. It combines sleek design with durability, featuring a 14-inch display with optional multi-touch screen and power-efficient performance to bring the benefits of AI to remote and challenging environments.

AI COMPUTING POWER

Equipped with the cutting-edge Intel® Core™ Ultra 5/7 processor and Intel® AI Boost, along with Windows 11, the S14I stands out as a high-performance AI PC. Designed by the leading rugged technology manufacturer, the S14I offers the perfect blend of enhanced reliability, productivity, and immersive experiences. It is ideal for professionals who require high performance and AI capabilities in a portable 14-inch chassis.

PERFECT DESIGN FOR MOBILITY

The S14I offers superior mobility and connectivity in the field and comes with cellular options of 4G LTE or 5G, Bluetooth® V5.4, Wi-Fi 7 and optional built-in GPS for seamless connectivity.

Designed with field operation in mind, it features a removable quick-release NVMe PCIe SSD storage drive and can operate for up to 16 hours with a single battery and even up to 32 hours in dual-battery setup. The S14I also features optional dual hot-swappable batteries for field operation without interruption.

BEST-IN-CLASS CONNECTIVITY

A smart device knows how to communicate in every way, and the S14I says it all: It's compatible with a full range of interfaces, and it offers additional customizations you may need.

The unit leads the market with dual Thunderbolt™ 4, dual RJ-45 ports, dual SIM (one Nano SIM slot & one eSIM), up to three USB 3.2 ports, HDMI 2.1 and microSD card slot. Further customization options

abound with up to two RS-232 serial ports, smart card reader and ExpressCard 54.

EXCEPTIONAL DURABILITY & SECURITY

The S14I is built with a robust mechanical design and rigorously tested components. It meets the standards of MIL-STD-810H; withstands up to a 4-foot drop; and boasts an IP53 rating. It can seamlessly adapt to any environment, even in temperatures ranging from sub-freezing -29°C (-20°F) to extreme heat of 63°C (145°F). The S14I's advanced security features include a range of multi-factor authentication options, such as a smart card reader, Windows Hello webcam, RFID/NFC reader and fingerprint scanner.

VIEW EVERY DETAIL

The S14I sports a Full HD 1080p display and proprietary DynaVue® technology. With brightness enhanced up to 1,200 nits and light-filtering technology providing a high contrast ratio (CR) to eliminate reflection, every detail of imagery is delivered with the utmost clarity. The optional capacitive multi-touch screen has four Touch Modes (glove, finger, stylus and water), optimizing use of the device for both indoor and outdoor applications.

DEDICATED MICROSOFT COPILOT KEY

Utilizing the dedicated Microsoft Copilot key, users can promptly activate edge AI capabilities. This feature enhances real-time communication and collaboration within your workspace, offers multilingual support, and streamlines everyday task automation. The new S14I empowers workers to leverage the substantial productivity advantages of AI-based applications. The dedicated Microsoft Copilot key ensures quick activation of AI capabilities whenever and wherever needed, revolutionizing the way we work and interact with technology.

DEDICATED GRAPHICS

The optional dedicated NVIDIA® RTX A500 transforms the S14I into an ultimate solution for specific tasks, such as graphics rendering, architectural illustrations and AI applications, delivering up to 100 TOPS in AI acceleration. Only a discrete graphics card can give you the performance and reliability you need to fulfill the demanding job.

VALUE-DRIVEN IN-VEHICLE SOLUTION

The S14I in-vehicle laptop is the computing solution that public safety professionals on the front lines
